Art. 17. Mr. Guy W. C. Hartt, for the committee on the collection of Garbage reported as follows:

Mr. Moderator and Town Meeting Members:

The committee on the collection of Garbage desires to report as follows:

Arrangements were made to have printed cards distributed to the families of the town in connection with the taking of the school census. Mr. Berry and Mr. Madden who performed the work gave out a total of 4217 cards. The number of cards returned to the committee was 658. Of this number, 333 indicated that they wished to have garbage collected and 321 did not desire to have it collected. Detailed figures showing approximate results of the canvas by precincts and a specimen of the questionnaire cards distributed are attached hereto for record purposes. In view of the indifference of our town people, as shown by these figures, the committee is unable to make any recommendation. It is still the opinion of the committee that the town should take action in the matter of the collection of garbage in those sections of North and East Weymouth where there is real need of it.

#### Special Town Meeting

Pursuant to the foregoing warrant a special meeting of the inhabitants of the town of Weymouth, represented by the Town Meeting Members was held at the hall of the Weymouth High School, the meeting was called to order by the Town Clerk, who announced that owing to a previous engagement Hon. George L. Barnes, annual moderator, would be unable to be present, and that it would be obliged to elect a moderator pro-tem.

Voted: That Emerson R. Dizer be instructed to cast one ballot bearing the name of William J. Holbrook as moderator pro-tem, there being no further votes he was declared elected, and was sworn to the faithful performance of that duty, by the Town Clerk. The moderator then ordered the reading of the warrant by the Town Clerk, after the reading of the call, it was voted: that the further reading of the articles be omitted, the Town Clerk read the last two paragraphs of the warrant and the return of the constable who served the warrant.

Article 1. Voted: That the Town rescind the vote passed under article 86 of the warrant for the Annual Town Meeting held March 3, 1924 whereby the sum of Fifty thousand (50,000) dollars was raised and appropriated for the payment of the cost of constructing the Monatiquot River Bridge in Braintree.

Art. 2. Voted: That the Town Treasurer, with the approval of the Selectmen, prepare and issue notes of the town, in the sum of Forty thousand (\$40,000) dollars under the provisions of Chapter 351 of the Acts of 1920 the same to be payable within twenty (20) years from the date of issue thereof; proceeds to be paid to the County of Norfolk, in payment of the Town's assessment of the construction of the Monatiquot River Bridge in Braintree as determined by the Commissioners appointed by the Superior Court of the County of Norfolk, under the provisions of Chapter 315 of the Acts of 1917, Chapter 269 of the Acts of 1918, Chapter 44 of the Acts of 1919 and Chapter 90 of the Acts of 1920; that there be further appropriated from surplus the sum of \$6,000 for the same purpose and that the \$5,000 in the town treasury which was raised and appropriated under article 86 at the annual meeting of 1924 be re-appointed for said payment.

As this question required a two thirds vote, the moderator appointed Newland H. Holmes and Prince H Tirrell as tellers, they were sworn to the faithful performance of their duty.

The tellers reported 44 in the affirmative and 1 opposed. So voted.

Art. 3. Voted: That the town appropriate from surplus the sum of \$400 for repair work at the Alewife Fishery.

Art. 4. Voted: That the town appropriate from surplus the sum of \$243.44 for the payment of unpaid bills, as follows:

Street Department	\$42.00
Miscellaneous account	50.00
Election expenses	16.00
Poor Department	80.00
Fire Department	55.44
Total	<hr/> \$243.44
Voted to adjourn.	

CLAYTON B. MERCHANT,  
Town Clerk.

The Police Officers checked 50 names of the Town Meeting Members as being present at this meeting.

## REPORT OF THE ELECTRIC LIGHTING COMMITTEE.

To the Honorable Board of Selectmen of the Town of Weymouth:  
Gentlemen:—

The Committee renewed to April 1st, 1926, the 1924 contract with the Weymouth Light And Power Co. and have paid them \$18,224.07, leaving an unexpended balance of \$275.93 which includes \$91.55 rebates allowed for lights out of service

The only changes during the year have been the installation of new lights of which the committee have installed twenty-seven 40C.P. and one 250CP. and the replacement by the company of about seventy-five worn fixtures.

It will require for the coming year \$18,608.28 to light the present number of lamps at the existing rates and we feel that owing to the call for new lights and the number of petitions for new streets, which mean new lights, that \$1,200.00 additional will be advisable for that purpose.

It is also the opinion of the committee that the town has grown enough to warrant the abolishment of the so-called moonlight schedule, whereby we have no lights on nights lighted by the moon, and it is our recommendation that \$2,180.00 additional be raised and appropriated for that purpose, the above additional amount being sufficient for an every night schedule on present and proposed lights.

We expect that when the proposed widening of Bridge Street is made it will be necessary to provide additional illumination for that street.

In closing we wish to express to the company our appreciation of their courtesy and promptness in all matters.

Respectfully submitted.

#### REPORT OF THE TOWN ENGINEER

To the Honorable Board of Selectmen  
of the Town of Weymouth

Gentlemen:—

I submit herewith my nineteenth annual report on the town survey work. and also on various other surveying or engineering work done in 1925.

The town survey work, so called, embraces all the work done on the revision and maintenance of a system of assessors sheets covering the entire town and includes each year the addition of all new buildings, all transfers and changes in property lines and ownership, and in general all work necessary to bring the sheets to date and correct as of April 1st of each year.

Incidentally there are constantly other changes to be made on the plans such as the establishment of an owner for an obscure parcel of land not previously identified, the removal of buildings destroyed by fire or otherwise, changes in area due to development or construction, etc.

The most notable example of the change in area due to construction is the case of the Edison Plant at North Weymouth which increased its area about 23 acres in made land notwithstanding the fact that it left Bridge street 70 feet wide, instead of 55 feet as laid out, through its property.

The increase in transfers still continues, those in 1925 being approximately 10% in excess of those in 1924 or about 1100 during the past year.

About 250 dwellings were added to the sheets for 1925 togeth-

er with approximately 200 other taxable buildings, such as garages etc. This does not include the buildings on the Edison plant.

The Ward lines were also drawn on the sheets for 1925 and will appear on all future sheets

The revised sheets for 1925 were delivered to the Assessors somewhat earlier in July than in the previous year and it is intended that the sheets for 1926 shall be completed on or about July 1st

I do not know whether it will be necessary to replace some of the earlier original tracings this year or not but the time is not far distant when two or three will have to be redrawn each year, as they become completely worn out through constant erasures especially where thickly settled and subject to almost yearly changes. None of the original tracings have been replaced or redrawn as yet, although some of these tracings have already been revised over fifteen times.

I would recommend that the sum of \$1650. (the amount of the appropriation for the past two years) be appropriated for the work of 1926.

As heretofore I would emphasize the need of recording all deeds as the tax bill is sent to the owner of record and if not paid the property may be sold. It is therefore important that the name of the true owner appear on the sheets.

The calling to my attention of any old unrecorded plan possessed by some one who reads this report will be appreciated, and I would express my thanks to any one who in the past has allowed me the use of such plans through loan or inspection.

During the past year there have been 151 town survey prints sold showing a profit to the town of \$45.40. Included in the above were two complete sets of 65 sheets each, one sold to the Norfolk County Registry of Deeds and the other sold to the Weymouth Light and Power Co.

An appropriation of \$300 was made for use during 1925 in setting stone bounds on town streets, and this has been used on various streets throughout the town, the majority of the bounds being placed on newly accepted streets not otherwise marked.

In addition to the bounds set by the town there were nine stone bounds set to mark the widening at Jackson square, East Weymouth, these being paid for by the County.

The amount appropriated the past two years has not been sufficient to properly bound even the new streets laid out the corresponding year, and I would recommend an appropriation of \$500 for use for this purpose during 1926.

The desirability if not the actual need of establishing a system of bench levels throughout the town seems to me apparent and if done would be of great use in various town work.

The demand for street numbers is constantly increasing, due to the increased amount of building; and I would call the attention of your board to the urgent need of a set of street numbering plans that would take care of this demand.

General routine work during the past year was as follows:— Surveys, plans for hearings, record plans and descriptions of streets recommended to the town for acceptance; taking profiles of various streets, staking streets, and establishing and giving grades for construction; taking profiles, staking and giving grades for drains; giving street lines when instructed by your board; testing street lines as shown on plans of land filed for registration

in the Land Court; survey and plan of site of alleged accidents; staking, giving grades and measurements of permanent sidewalks with schedule for Assessors in each case; establishing street numbers for various streets designated by your board; survey and plan of easement for the Water department; topographical survey and plan of the proposed playground at the junction of Middle and Commercial Streets; survey and plan of land adjacent Great Pond to be acquired by the town for the protection of the water supply; and other incidental work for various departments of the town.

I wish to extend, in closing my thanks to your board and to other town officials, and also to the citizens of Weymouth for assistance rendered and courtesy extended to me and to my assistants in the work for and throughout the town.

Respectfully submitted,

RUSSELL H. WHITING,

Civil Engineer

### REPORT OF COMMITTEE ON FIRE APPARATUS

Weymouth, January 1, 1926

To the Honorable Board of Selectmen of the Town of Weymouth:

In accordance with the vote of the Town at the last Annual Town meeting, the committee awarded to the Seagrave Company a contract for the furnishing of a double bank city service truck, complete with chemical tank and tools. The equipment of the truck includes several articles not ordinarily furnished, such as salvaging covers and fifty extra feet of chemical hose, which we felt the Town needed.

By the terms of the contract the Seagrave Company has the right to show the truck to prospective customers and use the same for demonstrations within one mile of the fire-house. This arrangement, beside securing for the Town a reduction in price, makes it reasonably certain that the Company will at all times maintain the truck in the highest state of efficiency.

The method of purchase followed by the committee has resulted in a substantial saving of money to the Town.

The truck was delivered on June 27, 1925, was immediately put into commission after an official trial before the Fire Department and the committee, and has given satisfactory service since.

Respectfully submitted,

### REPORT OF THE MOTH SUPERINTENDENT

South Weymouth, Mass.

To the Honorable Board of Selectmen of the Town of Weymouth  
Gentlemen:

Herein please find my report for the year 1925.

While a somewhat superficial scouting for moths through the Town shows good conditions still we find the gypsy moth scattered all through the town with from one to as many as seventy on a

tree the clusters averaging very large. I am informed by the State Office that an area of twenty-five thousand acres on Cape Cod was badly stripped by the Gypsy Moths. The Brown Tail Moths are very scarce in Weymouth but on my trip to New Hampshire in June I noticed very much stripping of Apple trees save in some orchards which had plainly been sprayed. On my return trip I stopped and made examinations and as I was at it an auto passed and stopped the owner got out and I was pleased to see townsman John Tower. I was glad to have him see the conditions there as it was on the Greenland-Hampton Town line not more than one hundred miles from here and with wind conditions favorable at time of their flight they might land here. There was some dissatisfaction with the spraying last season caused by the lack of evidence (white) on the trees. Now while formerly we used Arsnate of Lead only, we added to that a summer strength of Lime and Sulphur which tends to take care of your fungus troubles but turns solution dark. I intend to add another ingredient which will tend to take care of the Aphis (Lice).

Yours respectfully,  
C. L. MERRITT,  
Superintendent

#### REPORT OF THE TREE WARDEN

South Weymouth, January 12, 1926

To the Honorable Board of Selectmen of the Town of Weymouth:  
Gentlemen:

Herein please find my report for the year 1925.

At the Annual Town Meeting in 1925 the sum of \$1200 was appropriated for the care and preservation of shade trees. That amount has been judiciously spent in the trimming and removal of Town trees and the furnishing and setting out of 25 good Norway Maples. Had it not been for the reciprocal cooperation of both the Electric Light and Power Co. and the Telephone Co. some of our heaviest work could not have been done. I wish to here express my appreciation of their cooperation. There is great deal of badly needed work to be done on the trees of the Town and many new trees are needed to be set out. The trees of our town are and should be one of the most valuable assets. Now compare the amount of the appropriations for tree department with any other department in town and come to our annual town meeting and vote money enough to make some showing instead of being broke in mid season.

Yours respectfully,  
CHARLES L. MERRITT  
Tree Warden

#### REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen  
Gentlemen:

I herewith respectfully submit the following report of the Weymouth Fire Department.

At the annual election of March 1925 the Town voted the acceptance of Section 42 and 43 of Chapter 48 of the revised laws of Massachusetts which provided for the appointment of a Chief of the Department. "who shall take entire charge of the Fire Depart-

ment under the approval of the Board of Selectmen" It was with a deep sense of appreciation of the honor conferred on me. that I received your appointment to that office. It has with all its duties and responsibilities, been a labor of love to me notwithstanding the handicap of salary sufficient to allow me to give my entire time to the office. This will no doubt be remedied this year and we look forward to a year of beter efficiency and lasting improvement to the Weymouth Fire Department.

Not a fire department in any one section of our town but a Weymouth Fire Department devoted to the interest of protecting the lives and property of the citizens of the town of Weymouth. This is the intention of the chief of department and we are assured of the carrying out of this intention by the general attitude of the present personal of the department. There is one oustanding feature of fire department work which thus far has received but very little atention in the town; which is Fire Prevention.

We are all more or less familiar with the fact that few people realize the necessity of cleaning cellar and attics and other places where odds and ends are bound to collect and lay awaiting for the time when through carelessness or accident the spark will come which may result in a severe fire which may turn to a great conflagration. We read of these happenings every day and the people of the town of Weymouth may consider themselves fortunate that they have not seen these things in their town. To overcome these conditions, means the constant inspection by the officers of the fire department whose duties should require that any fire hazard no matter where should be removed and a general condition of cleanliness on all premises will result in much less damage and loss by fire.

### FIRE STATIONS

The several stations are in fairly good condition at present The station at East Weymouth has been changed to accommodate the new ladder truck which was received and put in commission in June. The front was made over to a three door entrance and the interior has been thoroughly painted by the two permanent men, resulting in a brighter and more business like station.

By a special appropriation the Station at South Weymouth has been shingled and addition built to accommodate the heater. This has resulted in much better conditions as the former location was altogether untenable on account of poor drainage, the water at times rose as high as the grates and necessitated the use of a ram to control the water conditions almost the year around. This station is in good condition inside and out at present.

The station at Ward 3 needs minor repairs to the roof and in side repairs to sanitary conditions and interior.

The station at Ward 1 needs minor repairs to heater and interior conditions.

### APPARATUS

The condition of the Apparatus at present is very good. Combination No. 2 has been quite an expense the past year, but at this writing is giving perfect satisfaction, due to recent overhauling. Combinations No. 1 and No. 5, have also been overhauled this year Combination No. 3 has had minor repairs also an electric sirene added. Ladder No. 1 requires special mention, Never in my estimation has their a more needed or better addition to your department. Much praise and commendation is due to the purchasing

committee for their choice in manufacture and equipment and too much cannot be said for the untiring efforts of ex-Chief Collyer to acquire this apparatus for the department. The truck has given perfect satisfaction on every occasion and the manufacturers through their representatives have lived up to every agreement as to upkeep and replacements. It is enough to say that it all that it was represented when we think of our neighboring city purchasing two of the same trucks and two pumps of the same manufacturers.

There has also been added a Forest Fire Truck, made from the Ford chassis with a good body of a former Hose wagon. This truck is equipped with extinguishers and ten five gallon water cans with pumps, also 500 feet of hose, brooms and other equipment needed in this work. This has resulted in keeping our regular apparatus ready for calls reduces the mileage of our regular trucks for these small fires, calls for which must be taken care of no matter how small and formerly kept our trucks on the road continually in the Spring and Fall. This truck should be properly painted this year and when this is done the department will own a Forest Fire Truck thoroughly equipped for the work at a cost of about \$200.

The department has had the busiest year of its history having answered the following calls:

	Bell Alarms	Still Alarms	Total
Combination No. 1	25	37	62
Combination No. 2	58	84	142
Combination No. 3	60	31	91
Combination No. 5	29	87	116
	<hr/> 172	<hr/> 239	<hr/> 411

Ladders No. 1 and No. 5 have added work in the nature of chimney fires, these trucks answer calls without the Combinations moving from the stations. The summary of the activities of your fire department will show that in the total some units of your apparatus is on the road better than an average of a run a day for the year past.

Ladder No. 1 has answered 41 calls since July 1st.

In concluding this report let me add:—It would be impossible to accomplish the duties which we have been and are called upon to perform without the cooperation of the officers and men of this department.

That cooperation we have had in a large degree, shown in the hearty response to calls made upon them at any time of the day or night.

I wish to express to your Honorable Board my sincere thanks for the wonderful support and consideration which I have received at your meetings. You have at all times shown your willingness to do anything to bring about better conditions and with all the mounting responsibilities of your office have courteously taken the time to discuss the conditions for the better Protection of Life and Property in the Town of Weymouth.

Respectfully submitted,

JOHN Q. HUNT,

Chief of Weymouth Fire Department

## REPORT OF THE SUPERINTENDENT OF FIRE ALARMS

To the Chief of Fire Department

The following report of the present state and future needs of the Fire Alarm System is hereby submitted.

The number of bell alarms for the year 1925 was as follows:—

Ward 1	23
Ward 2	28
Ward 3	6
Ward 5	9

Ten miles of new wire was installed in the past year. I recommend that ten more be installed this year. There will be a lot of expense changing to the new poles set by the different companies. The batteries will have to be renewed this year and some new ones added to the system to take care of the new boxes and lines. In conclusion I would like to say that the system is in a very much more staple condition than in past years.

Respectfully,

C. F. COOLIDGE,  
Superintendent of Fire Alarms

## REPORT OF SUPERINTENDENT ALEWIVE FISHERY

42 High Street, East Weymouth. Mass., December 17, 1925

To the Honorable Board of Selectmen of the Town of Weymouth:  
Gentlemen:

I herewith submit my first annual report as Superintendent of the Alewife Fisheries for the year 1925.

Work was begun on April 3rd, and continued until approximately sixty-one thousand five hundred (61,500) alewives were deposited in Whitman Pond for spawning.

Several repairs were made this year, such as, painting the building rebuilding sections of the fence, building new steps, etc.

As the Town of Weymouth was under no expense for the super

vision of this industry this season, it seems to me as though it should be on a paying basis in the future.

Respectfully submitted,

FRANCIS H. MAGUIRE

Superintendent of the Alewife Fisheries

## REPORT OF TOWN COUNSEL

January 2, 1926.

To the Honorable Board of Selectmen of the Town of Weymouth.

I herewith submit my report as Town Counsel for the year ending December 31, 1925

On January 1, 1925, there were pending against the Town the following suits:

Harold A. Billings for damages alleged to have been caused by blasting on Front street.

Simon Delorey for alleged damages to mowing land in consequence of condition of street drain.

Gustavus Bates for alleged damages to land on Pleasant street in consequence of street drainage:

Annie W. Bates for alleged damages to property on Washington Street, alleged to have been caused by shutting off of the water supply;

County Commissioners of Norfolk petition for apportionment of the cost of Monatiquot River Bridge;

Mary E. Bessette for injuries alleged to have been received through an alleged defect on Broad street, East Weymouth,

And there was pending in behalf of the Town of Weymouth, a suit against the City of Boston for relief furnished a pauper having a settlement in Boston.

The following suits have been brought against the Town during the year 1925.

Neil W. Hall and Rose Fay against the Town of Weymouth, for alleged injuries received by reason of an alleged defect on Forrest Street in South Weymouth.

There have been other claims made against the Town for alleged defects in highway, but suits have not been brought thereon

The cases of Billings, Delorey, Gustavus B. Bates, Annie W. Bates and Mary E. Bessette, are pending.

Recently Monatiquot River Bridge case, the Supreme Court has confirmed the judgment of the Commissioners and the Town's proportion of the cost of that bridge has been determined. It is expected that the loan authorized at a special meeting of the Town with which to pay this assessment will be consummated and the assessment paid during this month.

The case of Weymouth vs Boston above referred to has been tried in the Superior Court at Dedham, and the matter is now under advisement of the trial judge.

I am submitting herewith my resignation as Town Counsel. I desire to express my appreciation of the appointment and for the opportunity to have served the Town in this capacity. The demands of my private practice are becoming greater and I must devote more time to them.

Respectfully submitted,

WILLIAM J. HOLBROOK

Town Counsel

## REPORT OF 150th CELEBRATION COMMITTEE

Weymouth, January 1, 1926

To the Honorable Board of Selectmen of the Town of Weymouth:

This committee, appointed in accordance with the vote of the Town last summer, August 24, 1925, immediately met and organized by the choice of Colonel Frederic Gilbert Bauer as Chairman and of Mr. Arthur I. Negus, chairman of the Appropriation Committee, as Secretary. Up to the present time the Committee has held in all five meetings. The membership of the committee is representative of all parts of the Town, and besides the five organizations which have ex officio members on the committee, its membership includes representatives of the Grand Army of the Republic, Spanish War Veterans, American Legion, Sons of Union Veterans of the Civil War, the School Committee, the American Legion Auxiliary, and the Women's Clubs.

The committee is unanimously of the opinion that Weymouth the second oldest town in Massachusetts and the oldest within the Bay Colony, the birthplace of Town Government, the scene of the first military expedition by Massachusetts troops and of two engagements in King Philip's War, and one of only six towns in Massachusetts on whose soil actual fighting took place during the Revolution, should adequately commemorate this great anniversary of our country's independence, and that the small amount of money which such a celebration will cost will produce ample returns in increased civic pride and as an object lesson in patriotism to the younger generation.

The fact that July 4th this year falls on Sunday offers an opportunity to extend the celebration over two days, thereby avoiding crowding too many events into a short space of time, as we were obliged to do at the Tercentenary. Full detailed plans cannot be announced at this time, but it is hoped that by the time of the Annual Town Meeting the basic plans and arrangements will be substantially completed. Up to the present time, however, the plans of the committee include:

**SATURDAY NIGHT JULY 3rd.** Bonfires on prominent points in the Town

**SUNDAY JULY 4th.** Church services appropriate to the occasion  
In the afternoon, Memorial Services at the graves of the Revolutionary Soldiers of the Town and Dedication of the Markers at the Graves of the Soldiers of the War of 1812, for which the Town made an appropriation two years ago.

**MONDAY JULY 5th.** Reveille and Flag Raisings in the different parts of the Town.

Reproduction at North Weymouth of the Battle of Grape Island, May 22, 1775, which was really the Concord of the South Shore.

Mass Meeting with an oration by some person of national prominence, and singing by a chorus of some of the music sung at the National Peace Jubilee held in Boston at the close of the Civil War. There are still living in Weymouth several persons who sang in the Peace Jubilee.

The Massachusetts Society, Sons of the American Revolution, has accepted the invitation of the Committee to hold a field meeting in Weymouth on that occasion, so that we shall have the prestige and cooperation of the state organization of these descendants of the men who won our independence.

Further announcements of plans will be made through the local press. The committee cordially invites all citizens of the Town to make suggestions regarding the celebration, and bespeaks for this celebration that same hearty cooperation of all societies, business houses, and individuals in the Town which made the Tercentenary so successful.

The committee recommends:

1. That the Town appropriate a sufficient sum of money to finance the celebration as planned by the committee. The exact amount of this cannot be told at the present time, but will be submitted in detailed form to the Appropriation Committee before the Annual Town Meeting.

2. That the Moderator on recommendation of this committee, be authorized to appoint not exceeding ten additional members of the Committee, to serve with those already appointed, to carry out the plans for the celebration.

#### REPORT OF VISITOR FOR OVERSEERS OF THE POOR

Under the direction of the Overseers of the Poor, I have continued my visiting to the families, making to the Board for Relief. This has been done on one day of each week throughout the year 1925, in all 301 calls upon some 78 families.

In the case of initial appeals, calls have been made for the purpose of ascertaining the true situation and real need, as well as to acquire exact data on the applicants civil settlement. With the old people and the families receiving Mothers' Aid or long continued aid, the calls have been in the nature of supervision, particularly with a view to conditions of home and health.

A written report of each call has been placed in the hands of the Overseers for consideration at their weekly meetings.

## REPORT OF SUPERINTENDENT OF TOWN HOME

To the Honorable Board of Selectmen and Overseers of the Poor,  
of Weymouth Town Home.

Gentlemen:

In making my report for the year 1925, I am pleased to report the very best of conditions here at the institution in which you are so deeply interested.

Aside from the chronic conditions, our patients are in a healthy state and seem to be satisfied with their surroundings, and enjoy the comforts and pleasures provided for them.

To each and every person, society, church or choir, who have given so freely of your services, books, papers, fruit flowers, and delicacies, I extend my heartfelt thanks for your kindness. To the Physician who has continued to administer so cheerfully and faithfully to the physical needs of our patients, it has been a great pleasure to me to be associated with you and to receive the cooperation and help which has been given at all times. I extend you my thanks.

To you, The Selectmen, words fail me to express myself for the most loyal support, kindly advice, cheerful words of counsel, and the tender manner in which you have directed our duties, for all these I can only express myself with that one word, Thank you.

Respectfully submitted,

BARRETT R. WHEELER,

Superintendent.

## REPORT OF THE SUPERINTENDENT OF STREETS

To the Honorable Board of Selectmen of the Town of Weymouth Gentlemen:

I herewith submit my tenth annual report of the Street Department for the year ending December 31, 1925.

The year 1925 was one of great activity for this department and the results accomplished will be of a lasting benefit to the Town.

More new streets were laid out and constructed than in any previous year and the total expenditures considerably exceeded former appropriations for street work by several thousands of dollars. Had it not been for an early Spring and the generally good condition which the roads came through the Winter it would have been impossible to do all the work called for by the many appropriations.

The total amount expended under the regular appropriations was \$92,976.23 and under the summary of expenditures at the end of this report is shown the amounts expended under the various items. Any attempt to comment on the various sub-divisions would necessitate more or less of a repetition of past reports and I will but mention briefly a few of the items.

Oiling was greatly extended, so that now practically all of our streets are treated and the benefits greatly appreciated by the public. On many streets it was necessary to make two applications owing to the constantly increasing traffic.

The crusher was operated at Keiths' gravel pit from early Spring to late in the Fall and from the figures shown in the summary of crusher account it will be readily seen that this plant was most successfully operated, as the cost per ton was approximately 94 cents. To purchase the same in open market the price would have been from \$1.75 to \$2.25 per ton, to be sure the quality of the stone is not good enough for the top wearing surface of macadam roads but is plenty good enough for 75 per cent of our demands. A power shovel would materially lower the cost of operating this plant and I have so included an item in my 1926 budget for the purchase of the same.

## Summary of Crusher Account

Labor	\$5,123.87
Gravel and stone	385.83

Power	405.75
Supplies	45.06
Repairs	104.64
Total	<hr/> \$6,065.15
Tons crushed 6,394, cost per ton \$.94.	
Stone distributed as follows:	
General repairs	2,286 tons
Sidewalks	584 tons
Pleasant Street	1,092 tons
Washington Street	648 tons
Evans Street	356 tons
Pecksuot Street	22 tons
Thicket Street	258 tons
Pond Street	338 tons
Pine Circle	52 tons
Shaw Road	196 tons
Storage	372 tons

An Austin Pup Roller was purchased for \$1,930.71, this is a small four ton gasoline roller that can be used for sidewalks and other light rolling. This machine filled a long felt want and was used continually throughout the season. A sand spreader was also purchased for sanding oil and proved an efficient machine, this machine can be used in the Winter for sanding roads.

The installation of drains and catch-basins is a constant increasing item and \$5,299.03 was expended for this work.

The major job being the laying of a drain on Bayview Street from Bridge Street to Babcock Avenue and then the entire length of Babcock Avenue to tide water. The expense of this work was materially lowered and hastened by hiring a trench digger from the City of Brockton.

#### Special Appropriations

Under this heading there were twenty-three distinct appropriations and for matter of record I will mention briefly what was done under the various appropriations.

**Permanent Sidewalks:** Work consisted of cement concrete and asphalt concrete also the construction of concrete curbing, \$4,556.03 was expended and work done in various parts of the town, the largest single work being in front of the Stetson Shoe Co., Inc., factory on Main Street.

**Babcock Avenue:** This street was extended from Birchbrow Avenue to the water front making accessible a means of approach to many cottages on the shore. This road was built of gravel and the amount expended was \$796.46.

**Evans Street formerly Ramblers Way:** The construction of this street from Pearl to Standish Streets has opened a thoroughfare that is of much benefit to the traveling public and a street that is being greatly used. This street was laid out 50 feet wide and about 1600 feet long, the grades were made easy by considerable cutting and filling, much of the sub-foundation across the meadow is of very soft material, some places the muck being from 6 to 10 feet deep but it is hoped that the drainage will take care of this condition although traffic may necessitate heavier construction in the future. The foundation was covered with six inches of binding gravel thoroughly rolled and then two coats of tarvia applied. The sidewalk and gutters were

protected by paving stones laid in cement wherever over wash was apt to occur.

The total cost of this work was \$7,099.06.

Birchbrow Avenue, formerly Sacham Street: \$2,500 was appropriated for the working of Sacham Street from Birchbrow Avenue to the water front and the view lay out called Birchbrow. This street was constructed of gravel but due to the lateness of the season it was not advisable to oil it. Two catch basins were built near the southerly end and the outlet connected with the drain on Babcock Avenue. It was necessary to construct a concrete wall opposite the property of Mrs. Edith O. Coldwell, which cost \$606 this street has made a decided improvement in this section making a good approach to the water front.

Signs and Guide Boards: \$1,000 was appropriated to continue this much needed work and new signs of the "Evernue" type were erected in various parts of the town.

Forest Street: \$1,192.02 was spent on working and oiling this street. The worst portions were gravelled and the street is now in a better condition than ever before.

Permanent Construction (Pleasant Street): \$15,000 was the appropriation for this work and the work was done on Pleasant Street as specified in the vote of the town meeting. The street was constructed from gutter to gutter making an average width of 35 feet and extended from Water Street to Linden Avenue, a distance of 1,860 feet making a total of 7,297 square yards. The construction of this street differed somewhat from that of the past in that the foundation layer of crushed stone was penetrated with asphalt.

While this method increased the cost per sq. yd. somewhat, the stability of the road is greatly increased. Briefly the method was as follows: Old road surface removed and graded to conform with new grade and cross section of road; upon this new graded foundation after being rolled, was placed 2 inches of 2 in. crushed stone from our own plant, this stone was penetrated with 1 gal. of asphalt to the sq. yd. then rolled and covered with a light coat of 1 1-2 inch stone, upon this foundation course was placed 2 inches of 2 inch crushed stone and this course penetrated with 1 1-2 gals. of asphalt to the sq. yd. After rolling this, 1 inch of 1 1-2 inch stone was spread and penetrated with  $\frac{3}{4}$  gals. of asphalt the surface was then covered with 1-2 inch of pea stone and thoroughly rolled. As the quality of stone from our own plant was not up to the standard for other than the foundation course, it was necessary to purchase the same from other plants. The sidewalk grades were changed to conform with the new surface and two new catch-basins were constructed. I strongly advise the continuance of this type of construction on Pleasant Street the coming year.

Johnson Road: \$1,000 was appropriated to finish the work began in 1924. The road was surfaced with six inches of gravel and given two coats of tarvia.

Shaw Road: \$400 was appropriated and was sufficient to satisfactorily do the work.

Pond Street: \$2,500 was appropriated to remove the car track and resurface that portion of Pond Street between the N. Y., N. H. and H. R. R. tracks and Independence Square. After the tracks were removed the surface was graded with crushed stone and penetrated with tarvia this surface was then covered

with Amiesite and rolled. A concrete curb was constructed in front of the Hannaford Block near the Depot. The result of this work makes the travelling portion of Pond Street much wider and is a decided improvement.

**Winter Street:** \$600 was appropriated to oil and gravel a portion of Winter Street and was carried out to the extent of the appropriation.

**Pine Circle and Great Pond Road Sidewalk:** \$792.03 was expended on constructing gravel sidewalks on these two streets.

**Thicket Street:** \$1,000 was the appropriation for this street and while the amount was sufficient to materially improve the street the upper end will need attention this coming year.

**Widening corner of Washington and Pleasant Streets:** \$300 was raised for this work but as a satisfactory agreement could not be reached with the abbutters and as the original taking would not materially improve the corner no work has been done. A taking should be made at this point to properly round the corner.

**Front Street:** \$1,000 was appropriated to gravel and oil Front Street from Nashs' corner toward Winter Street due to the short haul, practically the entire distance from Nashs' corner to Ward 3 line was resurfaced and oiled with 2 coats of asphalt oil.

**Summer Street:** Similar work was done on Summer Street from the corner of Federal Street to property of Carl Everson at a cost of \$1,487.94.

**Prospect Street:** This street was improved from Washington to Keith Streets by curbing the sidewalks and by filling the gutters with Amiesite thereby making the traveled way considerably wider. The cost of this work was \$799.07.

**Broad Street Drain:** This work consisted of laying a drain on the East side of Broad Street between Washington and Stetson Streets, also the construction of a gravel sidewalk on the same side. Cost of the work was \$349.62.

**Washington Street Macadam:** The work consisted of surfacing the north side of Washington Street between Washington Square and Lincoln Square with asphalt macadam. Owing to the grade of the center of the road it was necessary to raise the sidewalk a considerable portion of the way and reset the curb practically the entire length of the hill on the north side. Three catch-basins were reconstructed and considerable drain pipe laid. The construction was similar to that laid on Pleasant Street and should last for several years. The cost of this work was \$9,095.52.

**Hollis Street Drain:** \$2,000 was appropriated to enlarge and rebuild the drain crossing Hollis Street near the grain mill of Alvin Hollis and Co. The walls were relaid and top covered with reinforced concrete making the capacity about twice that of the former drain. The ditches below were dug out and from all indications the problem here has been solved.

**Peksuot Road:** \$3,000 was appropriated for this street at a special town meeting and the work carried as far as the amount would allow. About \$1500 will be required to complete this street.

## REPORT OF THE SEALER OF WEIGHTS AND MEASURES

North Weymouth, December 31, 1925.

To the Honorable Board of Selectmen of the Town of Weymouth, Gentlemen:—

I herewith submit "my annual report for the year 1925 and with the increased number of gasoline pumps and more stores of the different commodities has increased the sealing fees to the amount of \$311.99.

I again wish to call to your attention Sec. 96, and 99, Chapter 94 General Laws as amended by Chap. 355. Acts of 1922, which requires all fruits, nuts and vegetables sold at retail by avordupois weight or numerical count. This is purely a point of education, now to the older people it seems easier and more convenient to go into a store and ask for a peck of potatoes when the rightful phrase is to ask for 15 lbs. of potatoes, or not a quart of onions, but instead 2 lbs. of onions; it will gradually become instilled into our minds. Now let the mother of a boy or girl when she sends them to the store for potatoes to have them ask the storekeeper for so many lbs. of potatoes as 15 lbs. instead of a peck. That will educate the children as to the new law and soon have us all to have forgotten the peck or bushel as a measuring device to sell and barter.

During the year 28 Fish, Fruit and Vegetable licenses were granted at \$10 each, 8 junk licenses granted at \$25 each.

Three convictions were made during the year. Peddling without licenses 3, two paid fine of \$10 each and one was placed on file.

My general work for the year is as follows:

Sealed	3,043 Articles
Non Sealed	28 Articles
Condemned	20
Gas Pumps	136 Articles
Reweighings	498 Articles

Respectfully submitted,

CHARLES W. BURGESS,

Sealer.

## PARK COMMISSIONER'S REPORT

To the Honorable Board of Selectmen of the Town of Weymouth. Gentlemen:

### Beals Park

We believe that we have made a valuable improvement to Beals Park this last summer by the building of the bandstand which is an asset to the people of No. Weymouth in more ways than one, first a band concert brings the people together in a community spirit, band concerts are very popular today during the summer months, now if we had no park and a good bandstand on which to hold these concerts people would go to other

towns on Wednesday nights as they are held here and spend their money with out of town refreshment stands when instead it is spent here.

The park commissioners' did not have money enough to build such a band-stand as would be an asset to No. Weymouth, but could build a good substantial base and platform by curtailing on some other things that perhaps the parks could get along without for this year, now with the co-operation of the Fellowship class of Pilgrim Church and other good spirited citizens a top was built for the band-stand at a cost of about \$700 which was sponsored by the Fellowship class through subscriptions, entertainments, moving picture and donations so that we now have a good permanent band-stand.

We would suggest that some play ground equipment be put in the new school house grounds at Bicknell Square.

The grass was mowed and grounds cared for during the year.

#### **Bailey Green**

The grass was cut regularly and the grounds cared for as in previous years.

#### **Great Hill Park**

Great Hill Park has become a sight during this last summer from an educational standpoint which I believe is a valuable thing for the people of Weymouth to know, the boy scouts pitched tents and camped out on the park on different nights during the summer where they had outlook posts and night maneuvering on the park and during the day signal drills were held from the park to other places of lower elevation such as wig-wagging.

The park is situated in a wonderful spot and do not let us forget it. Now if this had not been town property why perhaps some private owner would not have permitted them these privileges.

The stars and stripes were kept waving over the park during the summer months.

#### **Webb Park**

The work at Webb Park consisted of painting, repairing, some grading, and general care of the grounds at a cost of \$79.90.

We re firmly convinced that an outlying Park such as Webb Park should be planted to shrubbery and natural growth as a rest spot. We feel that with the tremendous increase of automobiles, and the danger to the children playing and crossing the streets that the Parks should be supervised either through the school department or by persons specially trained for that purpose. Both for the safety of the children, and for the proper protection of the Town's property.

#### **Lovell's Corner Playgrounds**

The Lovells Corner playground still continues to be a popular gathering place for the boys and girls of Lovell's Corner.

The interest shown by citizens is very helpful and profitable.

The following donations have been received during the year:

Citizens	\$87.00
Charles White	50.00
American Legion	55.00
Dorchester S. S.	5.00
Rec. for Lime Bottles	5.00
Foot Ball Association	7.00
Willie White	15.00

The following equipment has been installed: Seats have been located in Hawes grove in shady places. Merry go round, Parallel Bars, Jumping Standards, High Jumps, Jumping Standards, Standing, Climbing Pole, Trapeze, Horizontal Bar.

Some of these and the electric lights were made possible by donations.

Special mention should be made of the way in which the boys and girls have taken an interest in keeping the play ground and its equipment in good condition.

It is the opinion of the Park Commissioners that supervised play should be had in all parts of the town and it is theirs opinion that school yards in some cases should be the location and we recommend that it be tried to some extent during the summer months; to know how to play should be part of the education of every child.

Respectfully submitted,

FRANCIS W. REA,  
CHARLES W. BURGESS,  
JOSEPH KELLEY,  
Park Commissioners.

## REPORT OF THE BOARD OF HEALTH

To the Citizens of the Town of Weymouth,

Herewith is submitted the annual report of the Board of Health.

The board continued with the same organization as last year.

George B. Bayley was appointed inspector of milk and dairies, also of slaughtering and slaughter houses. In September Warren Menchin was appointed inspector of slaughtering and slaughter houses to fill the vacancy caused by the resignation of George B. Bayley. Thomas Fay and Frank Fay were granted a license to slaughter.

J. E. Ludden was appointed inspector of Plumbing and George Marshall deputy inspector.

During the year 93 complaints of nuisances were investigated.

Most of these complaints were in regards to the condition of the public dump and to the indiscriminate dumping along the highway and in vacant lots.

The garbage and dump situation still continues to be a big problem. Each year there is an increasing demand for more public dumps. There should be a municipal dump in each section of the town. These dumps should be under the care of a full-time man. One man should be able to burn over and care for all the dumps and keep them in fair condition.

During the year there were 366 cases of contagious disease reported as follows.

Chicken Pox	62
Diphtheria	17
Lobar Pneumonia	14
Scarlet Fever	64
Measles	92
Mumps	14
Pulmonary Tuberculosis	21
Other Forms	6
Whooping Cough	76

Respectfully submitted,  
 GEORGE E. EMERSON,  
 L. W. PEASE,  
 F. L. DOUCETT

#### REPORT OF COMMITTEE ON TOWN FOREST

Weymouth, January 1, 1926.

To the Honorable the Board of Selectmen of the Town of Weymouth:

The Committee on Town Forest has not pressed the matter for the past two years on account of other urgent needs of the Town. A full statement of the needs and advantages of a Town Forest are contained in the Committee's report of two years ago, to which reference is made. Other towns are taking the matter up, and the growth of Weymouth the past few years is such as to make the matter one which should be no longer delayed. The water situation in our Town is rapidly becoming such that a Town Forest will be a necessity to provide additional absorption area for the water supply, quite apart from its value as a source of fuel and timber wood.

The Committee is planning to have a detailed report on our situation made by the State Forester, and we shall be in a position before the Annual Town Meeting to submit a detailed and definite plan of action.

We accordingly recommend that steps be taken this year to acquire gradually the necessary land for a Town Forest, either under the Town Forest Law or the Town Domain Law.

Respectfully submitted,

FREDERIC GILBERT BAUER,  
 NEWLAND H. HOLMES,  
 FRED O. STEVENS,  
 ALFRED P. PILLSBURY,  
 PARKER T. PEARSON

Committee on Town Forest.

## REPORT OF THE WEYMOUTH VISITING NURSE ASSOCIATION FOR THE YEAR 1925

To the Citizens of Weymouth: The Visiting Nurse Association submits the following report of the work accomplished during the past year:

Total No. Patients Cared For	716
Medical	394
Surgical	199
Obstetrical	123
Total No. Calls	5,114
Total No. Free Calls	1,781

The Association supports two Registered Nurses, whose entire time is devoted to the work of the Association and who are upon call every week day and on Sunday for emergency cases.

The dental work in the schools has been successfully continued by Miss Alice Conroy, dental hygienist. This is carried on under the management of the Visiting Nurse Association. The report of the dental work may be found in the report of the Superintendent of Schools.

At the expense of the Association milk was furnished to one child for three months and several needy families were helped with food and clothing.

The nurses gave their services at the hospital tent at the Field Day of the American Legion in July.

In April a Child Welfare Clinic was held under the direction of the Massachusetts Department of Public Health at which 51 children were examined. Two doctors from the State Department and the two nurses of the Association were in attendance. This demonstration clinic indicated the need for such work in Weymouth and in November the Association established a Child Welfare Clinic to be held every Monday afternoon at the Dispensary, East Weymouth. The physician in charge is Dr. Edmund B. Fitzgerald of the Boston Children's Hospital. During the months of November and December, 114 children were brought to the clinics. Many of these patients showed marked improvement under the supervision of the doctor and nurses and it is hoped the clinics may become a permanent feature of the Association's program.

We take this opportunity to express our thanks and deep appreciation for the generous support and co-operation of the citizens of our Town.

Respectfully submitted,

KATHERINE D. PRATT, R. N.

**Library Hours:**

Main Library: 2 to 8 P. M. daily, except Wednesday, 2 to 5 P. M., and Saturday, 2 to 9 P. M.

Summer Hours: July and August, 2 to 6 P. M.; Wednesday and Saturday as above.

Branches: 2 to 5 P. M. and 7 to 8 P. M. daily, except Wednesday.

The library and the branches are not open Sundays, Legal Holidays and 17th of June.

The library is for the use of all residents of Weymouth.

Temporary residents are entitled to the same privileges as permanent residents.

Two cards are issued to each borrower over twelve years of age; a white card for general use and a green special card for non-fiction, including magazines and music scores.

A white card is given to any child under twelve years of age if the application is signed by parent or guardian.

Teachers and students are given cards which permit the taking of ten or more books, other than adult fiction, for twenty-eight days.

The vacation privilege allows a borrower to take several books, not recent publications, for an extended time.

All books from the circulating department, even the new fiction, may be kept for fourteen days. Recent numbers of magazines are limited to seven days with no renewal.

A book cannot be transferred from one card to another, but may be renewed at the library, by mail, or by ‡telephone, unless stamped **This book cannot be renewed.** The shelf number or title of the book and the borrower's name should be stated when the request for renewal is made.

A fine of two cents a day will be incurred for each day's detention of a book after it is due. When a book is sent for by the librarian it will be at the expense of the borrower.

Signs and abbreviations used in the booklists:

R Reference.

† Gift.

\* Not loaned without permission.

j Juvenile.

Cases of contagious diseases are reported to the library by the Board of Health and all books which have been exposed to contagion are burned.

For the convenience of residents living in different parts of the town, books are exchanged through the delivery stations once a week as follows:

Lovell's Corner	W. B. Chalke & Sons	Tuesday
South Weymouth	Fogg Memorial Library	Tuesday
South Weymouth	Alfred S. Tirrell	Tuesday
East Weymouth	East Weymouth Branch	Thursday
North Weymouth	North Weymouth Branch	Friday
Weymouth Heights	Smith's Market	Friday

Application for borrowers' cards may be made, and class lists may be consulted or purchased at the Delivery Stations, as well as at the Library and Branches.

## REPORT OF THE TRUSTEES OF THE TUFTS LIBRARY

The forty-seventh annual report of the Board of Trustees of the Tufts Library is respectively submitted as follows:

The past year has called for an unusual outlay in the care of the library building. Early in the year the trustees found that the condition of the brickwork demanded that, for the protection of the building, the walls must be pointed. The work was begun and as it progressed the necessity for going over the entire building was apparent. It was also necessary to make extensive repairs upon the roof.

The redecorating of the interior, begun in 1924, was completed. The handsome ceiling and the lighter coloring of the walls make the rooms more cheerful and more inviting.

A new lamp was placed over the delivery desk, portable lamps were purchased for the desks in the librarian's office and improved fixtures provided for the side walls of the other rooms.

The names on the library register represented so many inactive borrowers that it was considered advisable to make a new registration which was begun in June. The applications filed during the first seven months of this registration, June to December, were 2986 or more than twice the number received in the first nine months of the previous revision in 1909. This does not show the total of the borrowers as new applications have not yet been presented by all of the active card holders.

There were added to the library 1946 volumes, including gifts, replacements, duplicates and bound periodicals. Some of these additions were made at the request of borrowers. The trustees and the librarian gladly welcome any suggestions for the purchase of books or for improved methods of service; co-operation in this way is invited.

The mending, covering, and rebinding of worn books is not a small item in the work and expense of maintenance. In the past year 826 volumes were sent to the bindery and at the library 180 were recased by the Toronto method, besides the many covered and otherwise repaired.

Interest in the East Weymouth Branch was maintained during the year as shown by the number of cards issued to new borrowers and in the daily circulation. The average daily circulation increased from 95 in the first five months after the branch was opened in 1924 to 115 in the year 1925. The largest circulation was 229 on December 5, the smallest 33, the day of the severe storm in February.

The pupils in the Grammar grades are learning to make use of the books in their school work, coming often to consult the reference books. The older people as well, show their appreciation of the library privileges by their patronage; the oldest borrower is a lady ninety years of age.

An Italian dictionary, an Italian grammar, and a two year subscription to Child Life were presented to the branch.

Considerable interest was manifested in periodicals of which 2498 were loaned.

The money from the Charles Henry Pratt Trust Fund was spent for 15 juvenile books; as these are duplicates of books in the main library they are not listed with the funds. The books purchased with the Tirrell Donation are listed in Appendix B; part of this fund was used for the Lincoln Library of Essential Information, for the reference department.

An improvement in the lighting of the North Weymouth Branch room was made by the installing of more modern fixtures. An additional charging tray, demanded by the increasing circulation, was added to the equipment. The total circulation was 15,864, an increase of 2,249 over that of 1924. The Life of Christ, by Papini, and a subscription to the Christian Leader were presented to this branch.

The Main Library was open 303 days and the branches were open 252 days. The circulation from the Main Library was 52,108; from the North Weymouth Branch 15,864 and from the East Weymouth Branch 29,042, making a total circulation of 97,014, an increase of 12,999 over that of 1924 and the largest circulation in the history of the library.

The list of periodicals to be found in Appendix C shows that a few subscriptions have been discontinued and several new titles included.

The additions to the reference department include the following titles: Dickens encyclopedia, by A. L. Hayward; George Eliot dictionary, by I. G. Mudge & M. E. Sears; Great events of the great war, ed. by C. F. Horne & W. F. Austin; Home book of modern verse, ed. by B. E. Stevenson; Index to dramatic readings, comp. by A. K. Silk & C. E. Fanning; New international year book, 1924; Statesman's year-book, 1925; United States catalog supplement, July 1921-June 1924; Whitaker's almanack, 1925; Who's who, 1925; World almanac, 1925; and The Lincoln library of essential information for the East Weymouth Branch.

Pictures from the Library Art Club on the following subjects were exhibited in the reading room: Italian posters; Lexington, Mass.; French wood carvings; The merchant marine; Baghdad and Babylon; Flowers of New England, late summer and autumn; Arizona, near Phoenix; Royal Scottish academy; American wood engravers; Recent American art; Picturesque Spain; Pleasant art, in what was once Austria; Old rhymes, il. by Henriette Willebeck Le Mair; Frank Brangwyn; Arts and crafts, work executed by students in art schools of Great Britain.

At the solicitation of the American Merchant Marine Association 246 books, contributed by the Monday Club and other interested people of Weymouth and East Braintree, were sent to the Boston Public Library for the American seamen.

A special collection of children's books was purchased in observance of Children's Book Week, and put into circulation at that time.

Several collections of books in French, German, and Italian, borrowed from the Massachusetts Department of Education, Division of Public Libraries, were used by students and by our foreign-born citizens who expressed their appreciation of the privilege. The Italian books were deposited at the East Weymouth Branch where an especial interest was shown in them by the Italian population.

"Reading With a Purpose" is a series of reading courses issued by the American Library Association to interest and assist people who grow dissatisfied with desultory reading, and who want to read with a purpose. The booklets of this series are being added to the library as they are published and, with books which they recommend, may be borrowed from the library. The number of books suggested is small and the reading of them may be easily accomplished by the average busy person.

Under the will of the late Laban Pratt of Dorchester, the library received in the latter part of the year, a valuable collection of about eighteen hundred books and two pictures, one of Abraham Lincoln and the other of Ulysses S. Grant. The books were received too late to be prepared for circulation before the close of the year.

Mr. Winslow M. Tirrell presented 78 volumes in memory of Lucy G. Tirrell.

The gifts for the year, as usual, include publications from the State and Federal governments; books, pamphlets, and periodicals from individuals and societies; and annual reports, bulletins and other publications from libraries, colleges and universities.

The Trustees hereby acknowledge these gifts and thank the donors.

The library service has been broadened in the last three years by the establishment of the branches, one at North Weymouth in 1922 and one at East Weymouth in 1924, but there are still two urgent needs which should be met, the first and greatest of which is provision for the children by the opening of a children's room which has been repeatedly suggested in the library's annual reports. Can it not be achieved in the coming year?

Secondly, the fitting up of the unfinished upper story of the building as a hall which, although primarily for library use, could be used for lectures and social gatherings or for club and other meetings for educational purposes; it would also provide a place for the exhibition of pictures and other works of art which the library might receive if would-be donors were assured that a room was available for their display.

CLARANCE P. WHITTLE,

By order and in behalf of the Trustees.

## REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Weymouth:

Your Committee wish to call special attention to certain particular needs of the schools in the immediate future, and leave the general statement of the progress of the schools during the past year to the report of the Superintendent, which is incorporated herewith.

The Athens School has been provided with an adequate heating plant, and the interior of the building has been put in excellent condition.

During the coming year the Washington, Jefferson, Pratt and Shaw Schools should be painted, and a steam plant replacing three old furnaces should be installed in the Shaw School. The exterior trim of other buildings, particularly the Nevin and the old High School, should be painted. A liberal policy of maintenance consistently followed will avert serious conditions of disrepair. Your Committee doubts if it will be worth while to do much with the Franklin School. If it is to be continued as a school building, it will need considerable remodeling at an expense out of proportion to the benefit to be gained. The rooms at the Franklin, however, are now needed, and the school cannot be given up until other and better quarters are provided.

The recent growth of Weymouth is having its effect on the schools in all parts of the town, and now is the time to provide for anything that can be foreseen in the near future. It is known that the new school building at North Weymouth, which will be finished in time for occupation in September, will be filled at once. In East Weymouth there is again a crowded condition, and the same applies to the Nevin School at South Weymouth. The portable school building at the Pratt School will serve for a period, and probably a similar one transferred from North Weymouth to South Weymouth will take care of the coming year at the Nevin School.

The school grounds in several parts of the town are altogether too small for any future growth, and additional land should be secured at the Hunt, the James Humphrey, the Edward B. Nevin and the High School for such purpose. The Humphrey School is provided with an excellent playground. Such ground should be extended considerably in width. Any one familiar with the situation in Weymouth Landing knows the inadequacy of the school grounds there. The land at the north and west of the High School should be secured without delay in order to insure sufficient room for the future, and at the Nevin School a small addition in the rear will be greatly needed when an extension is added thereto. Within a period of five years the Nevin School will have an attendance of probably six hundred, a number altogether too large to use exclusively the playground in front.

The probable attendance at the High School the coming year will be about nine hundred, and the shop work now done in the school building should be taken outside to some other structure of less expensive type. Your Committee are, therefore, inserting a special article in the warrant to cover this purpose, and will be prepared both before the Appropriation Committee and Town Meeting to state the needs of the High School in this behalf.

The following is a summary of regular expenses for the past year and estimates for the coming year:

	1925	1926
	Expenditures	Estimates

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

## Members of the School Committee:

I herewith submit my seventeenth annual report, the fortieth in the series of annual reports of the superintendents of this town.

## POINTS TO BE NOTED IN THE REPORT

1. The average cost of education in the town, both high and elementary, is well below the average cost in the state.
2. The number of days that school was in session, both in the high and elementary grades, is above the average in the state.
3. The percentage of attendance, both high and elementary, is above the average in the state.
4. Provision should be made for enlarging the industrial work at the High School.
5. The increase in the school population has been over 10% in six months.
6. Provision should be made for adding to the school plant in at least three parts of the town.

## COSTS

That the schools are being run economically is evidenced by the comparative table taken from the state report compiled at the close of the school year in June. These figures show that the only item in which Weymouth exceeds the average cost in the state is that of transportation. This, of course, is a cost which cannot be reduced, and which will of necessity grow larger as the future growth of the town extends to the outlying regions. The estimates for next year may seem large, but there has been a ten per cent. increase in school population. The appropriation asked for is less than ten per cent. larger.

Cost per pupil in average	Weymouth	State Average
Membership for 1924-1925 for		
General Control	\$2.32	\$3.21
Supervisors, Principals and Teachers	47.62	60.59
Text Books and Supplies	3.16	4.24
Operation (including Janitors and Fuel)	7.70	9.92
Repairs, Replacement and Upkeep	3.65	4.92
Promotion of Health	.63	1.17
Libraries	...	.04
Transportation	4.06	2.11
Miscellaneous	.06	1.43

## ATTENDANCE

	Weymouth	State Average
Number of days of school		
High School	187	184
Elementary	185.5	184
Per cent. of attendance	.9369	.9301

Special credit should be given to the following schools for high attendance records:

Ward II, East Weymouth, Average attendance for year..	.95 plus
Jefferson School, four-room primary building, Average percentage for year.....	.9684

Jefferson School, Grade IV, Highest average percentage... .9844  
 James Humphrey School, eight-room grammar building,  
 Yearly average for six rooms..... .96 plus

### INDUSTRIAL WORK

A recent editorial in the Boston Globe covers so completely the school problem as we are trying to work it out in this town that I am taking the liberty of quoting some of its more striking passages.

"In the year 1647 the Commonwealth passed a law requiring every town of one hundred or more families to establish and maintain a grammar school. Harvard College had been founded eleven years previously, and the purpose of the public schools was to keep Harvard supplied with students. . . . Because it was so in the beginning, the academically-minded boy or girl who acquires the habit of learning from books does not lack the chance provided by law for the boys of 1647. Going to college is a different matter from what it was then, but preparing for it persists.

"For schools which rest on the foundation of the popular will it is not to be expected, nor is it fair, that the objectives should be so narrow. There are types of mind which learn by doing rather than by reading. In a simpler age when most people lived on farms or in tiny rambling towns, an enormous amount of education was obtained away from school. The girls had tasks within the house; the boys did chores outside. They carried water, split wood, looked after stock, helped in the fields. If the father happened to be a blacksmith or a carpenter, his son learned a trade naturally. If it seemed desirable, a boy might be apprenticed to acquire a means of livelihood. In this piecemeal education of hand and eye what was commonly known as gumption developed. Youths grew up alert, self-reliant, able to think for themselves.

"Most of the chores have vanished. Wood costs much to burn and is delivered ready to cut; water comes out of the faucet; such cows as there are live far away. Industries have been moved out of the home into the factory. Children continue bending over books, but there is complaint that the boys and girls of today are not endowed with the "horse sense" of their ancestors. Education has a new problem, that of developing in children what used to be given them by simply being alive."

How are the Weymouth schools meeting this need?

1. In 1916 an agricultural course was established in the High School. This has been one of the most successful in the state and also one of the most satisfactory of our smaller courses.

2. In 1924 trade courses in carpentry and cabinet-making were added for boys; and a course in home-making for girls.

3. This year commercial printing has been started, with every prospect that it will fill an important position in our school curriculum.

4. In order to satisfy the increasing demand for this type of education, and distribute the boys graduated from the school to a larger number of industries, provision should be made during the coming year to add sheet metal work, electric wiring and automotive repairing, this latter to be particularly for the benefit of the agricultural boys.

To do this, it will be necessary to build a shop outside of our main building. The present enrollment in the school is seven hundred and ninety-five pupils. Next fall there will be nine hundred or more. Every room in the main building will be required for

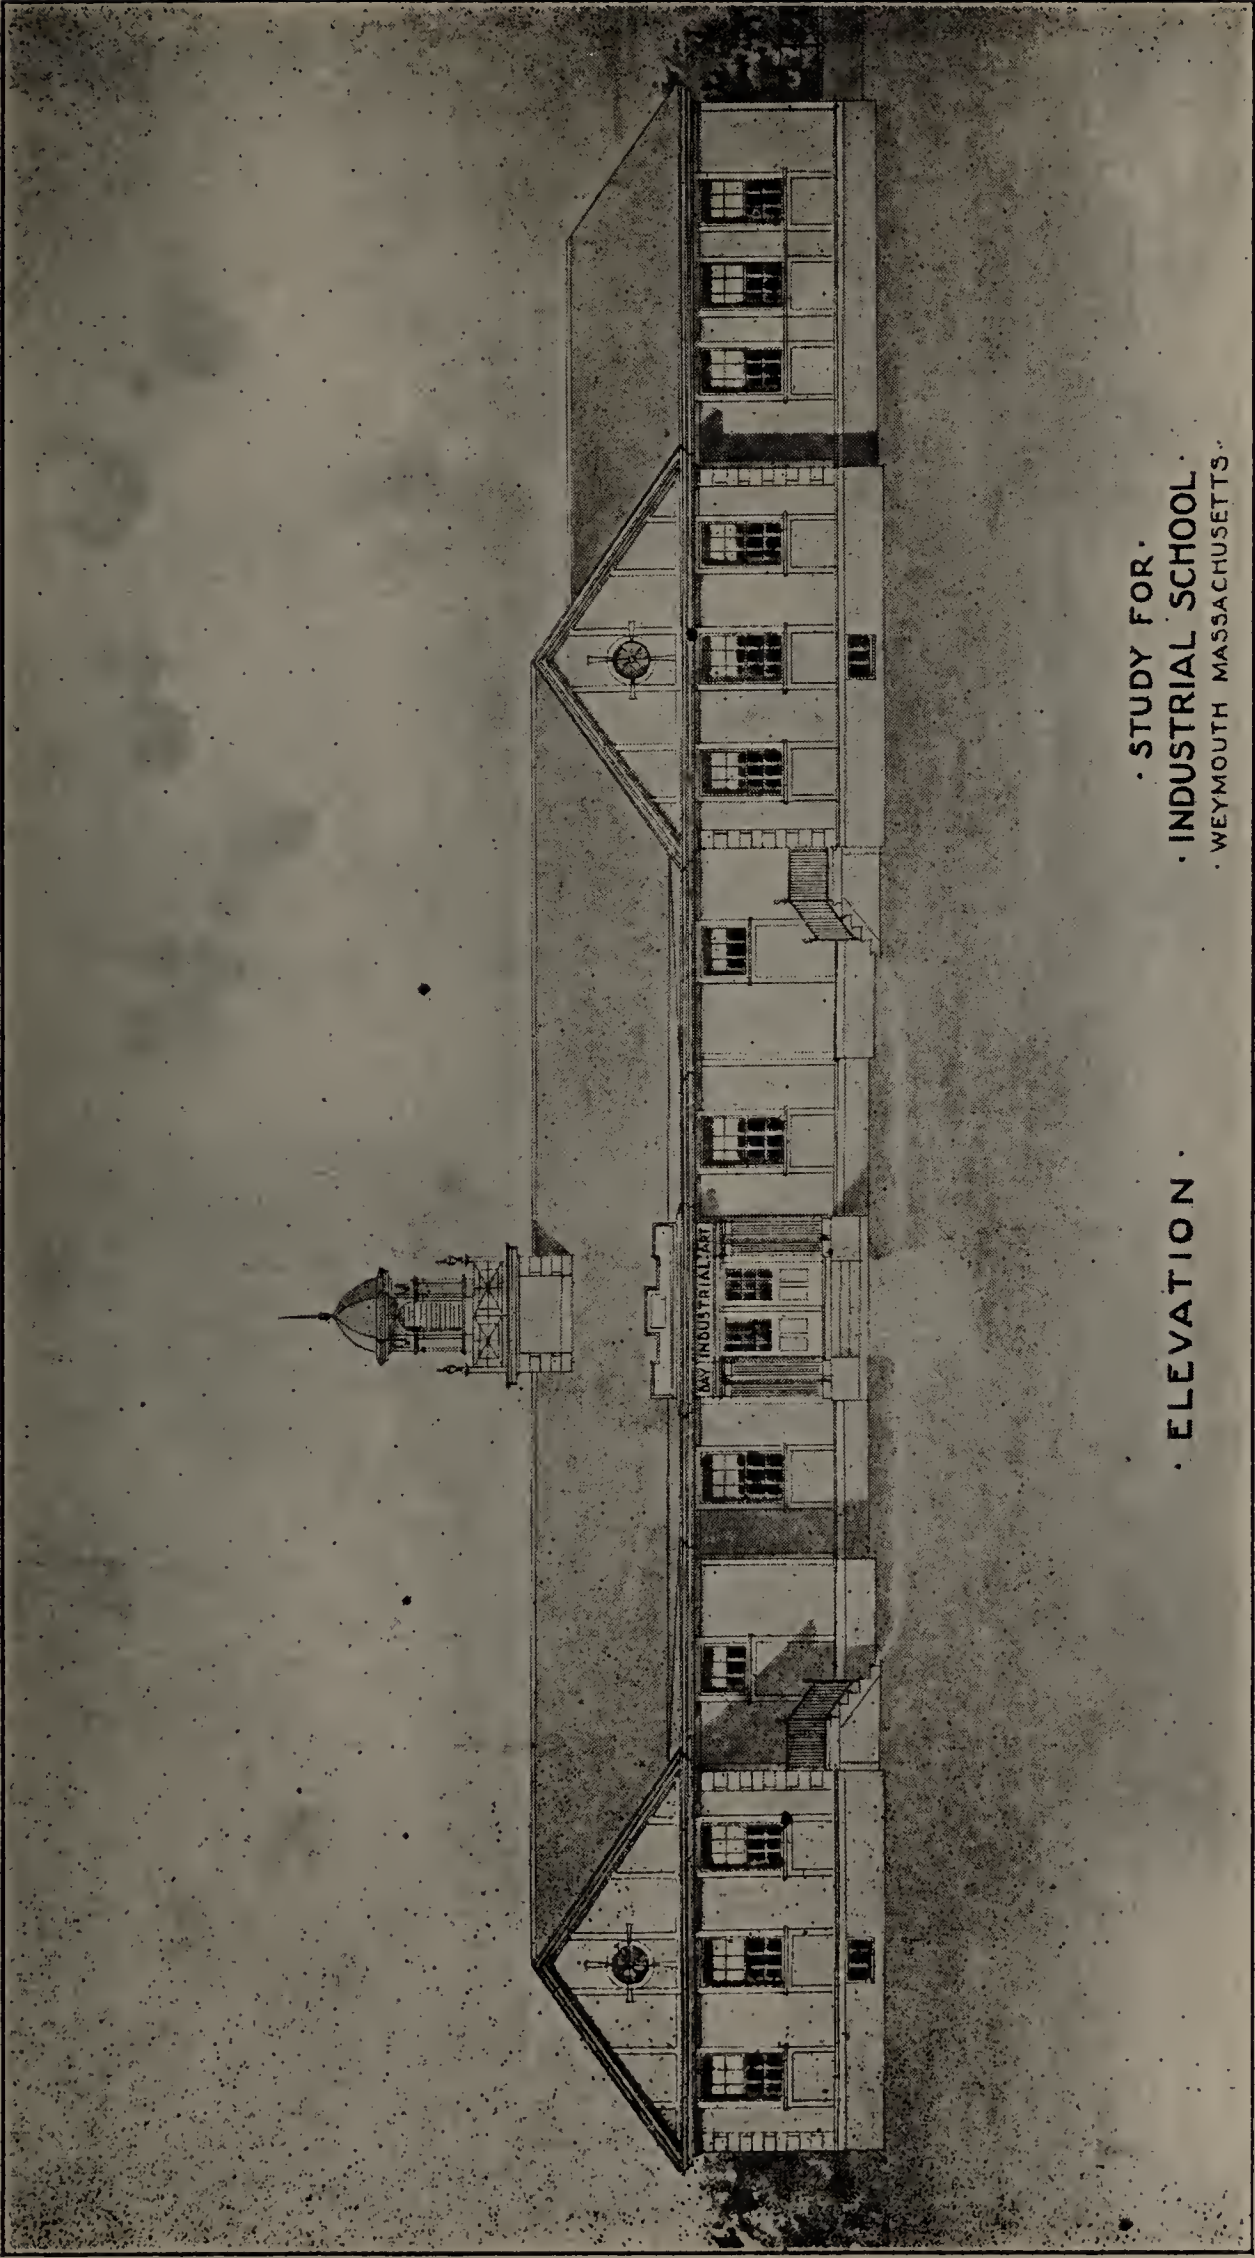

regular academic work. It will be cheaper and more expedient to build a shop away from the school for these special activities than to add to the main building. I would recommend making this building of such a type that the boys can build the major portion of it. This will reduce the cost, and also given them a splendid opportunity to obtain experience in the line of work which they have chosen.

Skeleton plans are being presented showing the type of building which might be erected for this purpose. Figuring such a structure on a basis of seven thousand square feet of floor area and cubical contents of one hundred and fifty-six thousand feet, the cost under ordinary conditions would be about \$40,000.00. Deducting from this the value of the labor that the boys would put into it, and adding sufficient for such new machinery as would be needed, the cost would approximate \$35,000.00. If made an integral part of the main building, the cost would be at least fifty per cent. more. That the boys can do this is evidenced by the fact that they are now completing a seven-room house and two-car garage. They have done all the carpentry work on this project, all of the cement work, some of the painting and such grading as could be completed before the ground froze. Those who have kept in close touch with the operations will agree that the work has been of superior quality.

If carpentry is to be of practical value, it should be along such lines. Mere shop work and theoretical teaching do not give the same value as actual problems of job construction. The industrial courses are not "snap courses." The boys actually have a longer day than in the academic departments; seven hours as against five. That they are interested and willing to work the longer hours with a definite objective in view, is shown by the fact that during the summer they worked eight hours a day on the house, with scarcely any absence from the job. In order that those who read this report may have a definite idea of the kind of work that the boys are doing, several cuts covering the various activities have been inserted. Those of the house may be of particular interest, as this is a distinct departure from the regular type of work in the state and has occasioned much comment. The money for this work was furnished on demand notes by the Weymouth Trust Company.

The total cost of land, house, garage, grading and driveway will not be more than eight thousand dollars. Any income which may be derived from the sale of the property will be devoted to the purchase of new equipment for the department. A detailed account of expenditures to date is given herewith:

James Doherty	Henry White
Alfred Longuemare	Louis Zeoli
William Loud	

In addition to their pay, they received credit toward a diploma which will enable them to complete their courses in April.

## SCHOOL ACCOMMODATIONS

There are, as of January 1st, 3554 pupils enrolled in the schools. This is a net increase of over ten per cent. in six months, as there was at the close of school in June an enrollment of 3234. This increase is distributed as follows:

Ward I	77
Ward II	64
Ward III	44
Ward IV	36
Ward V	23
High School	76

---

320

In Ward I the new building will provide for the increase of this year and next.

In Ward II we have a different situation. If the parochial school is opened, any increase which may occur will probably be offset by those who attend that school. The old Franklin School is not a suitable structure for school purposes and should be discarded. Reference to past school reports will show that it was considered unfit for use and abandoned in 1908. The matter has been discussed with architects and carpenters, and there is an agreement on this point; that it would cost more than it is worth to make of it a modern school building. The lot also is not suitable for school purposes. It is small and the children are forced to play on the streets which run on both sides, and one of these streets is a main thoroughfare. We have had sufficient experience with conditions of this kind to know that a building so situated is a source of constant annoyance to the public and a menace to the safety of the children. I would, therefore, recommend that more ground be purchased at the Humphrey, and such additional accommodations as may be needed provided in that quarter of the town.

In Ward III the Old Hunt School should be torn down and a new wing added to the New Hunt, with a gymnasium for games and recreational purposes, this building to include in the near future a Junior High School for this ward. The Old Hunt, like the Franklin, is not suited for school purposes. It is poorly designed, poorly lighted, and does not lend itself to reconstruction.

The present needs of Ward IV have been provided for by a portable at the Pratt. Before building permanently it may be well to watch the trend of the growth in that section of the town.

As the growth in Ward V has been only twenty-three during the present year, a portable or portables will provide sufficient room for one year more. I would then recommend that plans be made to add to the Nevin School with a view to making it the Junior High School for that portion of the town, including also the seventh and eighth grades in the districts now covered by the Pratt and the Shaw. The article in the warrant asking for a six-room building near the depot has merit, and should receive consideration. Whether it would be wise to construct this building before additions have been made to the Nevin rests with the judgment of the voters and the people living in that section of the town most affected.

The Pond School should be eliminated as a primary building as soon as possible.

Provisions for the growth of the High School have been discussed in another part of the report.

The town is scattered. For that reason any consideration of the school problem must take into account the placing of buildings in positions as convenient as possible for the children. We are approaching more rapidly than was expected the time when Junior High Schools should be established in the different parts of the town. The Junior High School plan has been discussed in other reports. For the benefit of those who may not understand, however, I will state that the Junior High School would contain the present seventh and eighth grades and the first grade of the High School,—three in all. Such an arrangement would leave the three upper grades of the High School, including the industrial work, in the present building,

### TEACHERS

Twelve resignations have been accepted during the year. Of this number three left to be married, two accepted positions in Boston, three accepted positions nearer home, three accepted positions paying better salaries, and one went to Florida. Seventeen regular teachers and two temporary teachers were appointed, making a net increase to the teaching force of seven,—three at the High School and four in the elementary grades.

There are on the force thirteen temporary teachers. All but two of this number are married women. It may be well at this time to make a statement as to the exact standing of the temporary teachers in town. They are not elected, and may be replaced at any time by regularly elected teachers. We have been forced to make use of them owing to a shortage of strong or well-trained material, particularly in the upper grades. The schools are being run, or should be run, for the best interests of the children themselves, and for that reason there is no justification for employing a teacher of less experience and poorer teaching ability, when better material is available.

Up to the present time the policy has been to employ all Weymouth girls who have the right personality and prepare themselves sufficiently for the position which they desire to occupy. We do not certify to the Normal Schools any girls, unless they are of college grade,—that is, in addition to natural aptitudes for teaching, they must maintain an average of at least eighty-five per cent. for the four years of the High School course. As the students come from the Normal Schools and apply for positions, they are told frankly that if they have gained the confidence of their instructors, if they have maintained a creditable standing in their Normal courses, and if they can secure the proper credentials from the critic teachers of their respective schools, they are almost certain of a position in Weymouth. The fact that town girls have proved to be successful teachers rests almost entirely upon these two principles. First, we encourage to go to the Normal Schools only those who have the abilities and characteristics to make good teachers. Second, we insist upon good work in the training school. None of the married women will become permanent teachers, and they will disappear from the force gradually, as conditions warrant.

It is pleasing to note the increased number of teachers in the grades and in the High School who have taken professional courses during the year. This attitude on the part of the teachers should be encouraged, and I trust in the future the School Committee will be able to offer increased salaries to those who improve their worth

to the schools by study or otherwise. A teacher should continue to grow and develop, even after graduation from institutions of higher learning, and such growth means constant effort to keep abreast of the times. I am appending to this report, for the information of the teachers themselves as well as the public, a tabulation showing the experience, training and extra courses taken. Some have never taken courses since leaving Normal School or college.

Next year it is estimated that five additional teachers will be needed at the High School, four in the grades, and two in special classes for retarded children. We have asked that the expense of the Dental Nurse be made a school item, and have also made provision to have the Supervisor of Music on full time.

## REPORTS

As the work in manual training, sewing, and that of the school nurse has progressed along regular lines, these reports have been omitted. The reports of other departments follow.

### HIGH SCHOOL

(Report of F. W. Hilton, Principal)

The High School statistics still show an increase in numbers over previous years. Distribution of the enrollment by subjects and classes is shown in the following table:

	Freshman		Sophomore		Junior		Senior		Total	
	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls
Classical	36	31	8	29	15	25	8	11	67	96
Technical	22	11	29	11	15	0	12	1	78	23
Business	45	72	38	94	9	27	7	32	99	225
General	27	6	18	4	13	4	14	11	72	25
Practical Arts	0	22	0	15	0	2	0	0	0	39
Woodworking	17	0	12	0	11	0	0	0	40	0
Printing	12	0	0	0	0	0	0	0	12	0
Agriculture	7	0	5	1	3	0	3	0	18	1
Total	166	142	110	154	66	58	44	55	386	409

GRAND TOTAL, 795

The entering class represents not only students from all parts of the town, but a good many from other sources, as below noted:

Freshman Class			
From	Boys	Girls	Total
Athens	21	26	47
Humphrey	36	23	59
Hunt	16	22	38
Nevin	28	19	47
Pratt	4	5	9
Shaw	6	5	11
Other Schools	55	42	97
Total	166	142	308

A study of the first table will show that the business course still is the choice of the largest number, although we are offering a varied line of practical work. The number taking the classical course remains about in the same proportion from year to year. Pupils in trade and practical arts courses are drawn largely from

those who would take either the general or business course. I believe that we should offer as diversified a line of trade as possible. The difficulty of securing apprentice positions in trade, and the necessity of supplying new material, is being generally felt and already has caused considerable enlargement in trade courses throughout the country.

### WOODWORKING

Our woodworking department has been worked through three successive years to rather an interesting stage, culminating in the actual building of a dwelling house and garage. This has attracted state-wide comment of a very favorable nature. We are very glad to allow inspection of the construction, and are showing cuts giving some idea of this project.

### PRINTING

We have this year started to organize a trade course in printing, which has proved interesting, and will, we hope, be equally as successful and popular as carpentry. This schedule requires a seven-hour day, as all state-aided courses. As examples of practical shop work we have been able to print the school paper and many smaller school printing jobs. The course is expected to extend over three years and give considerable actual shop practice as well as a very good general education.

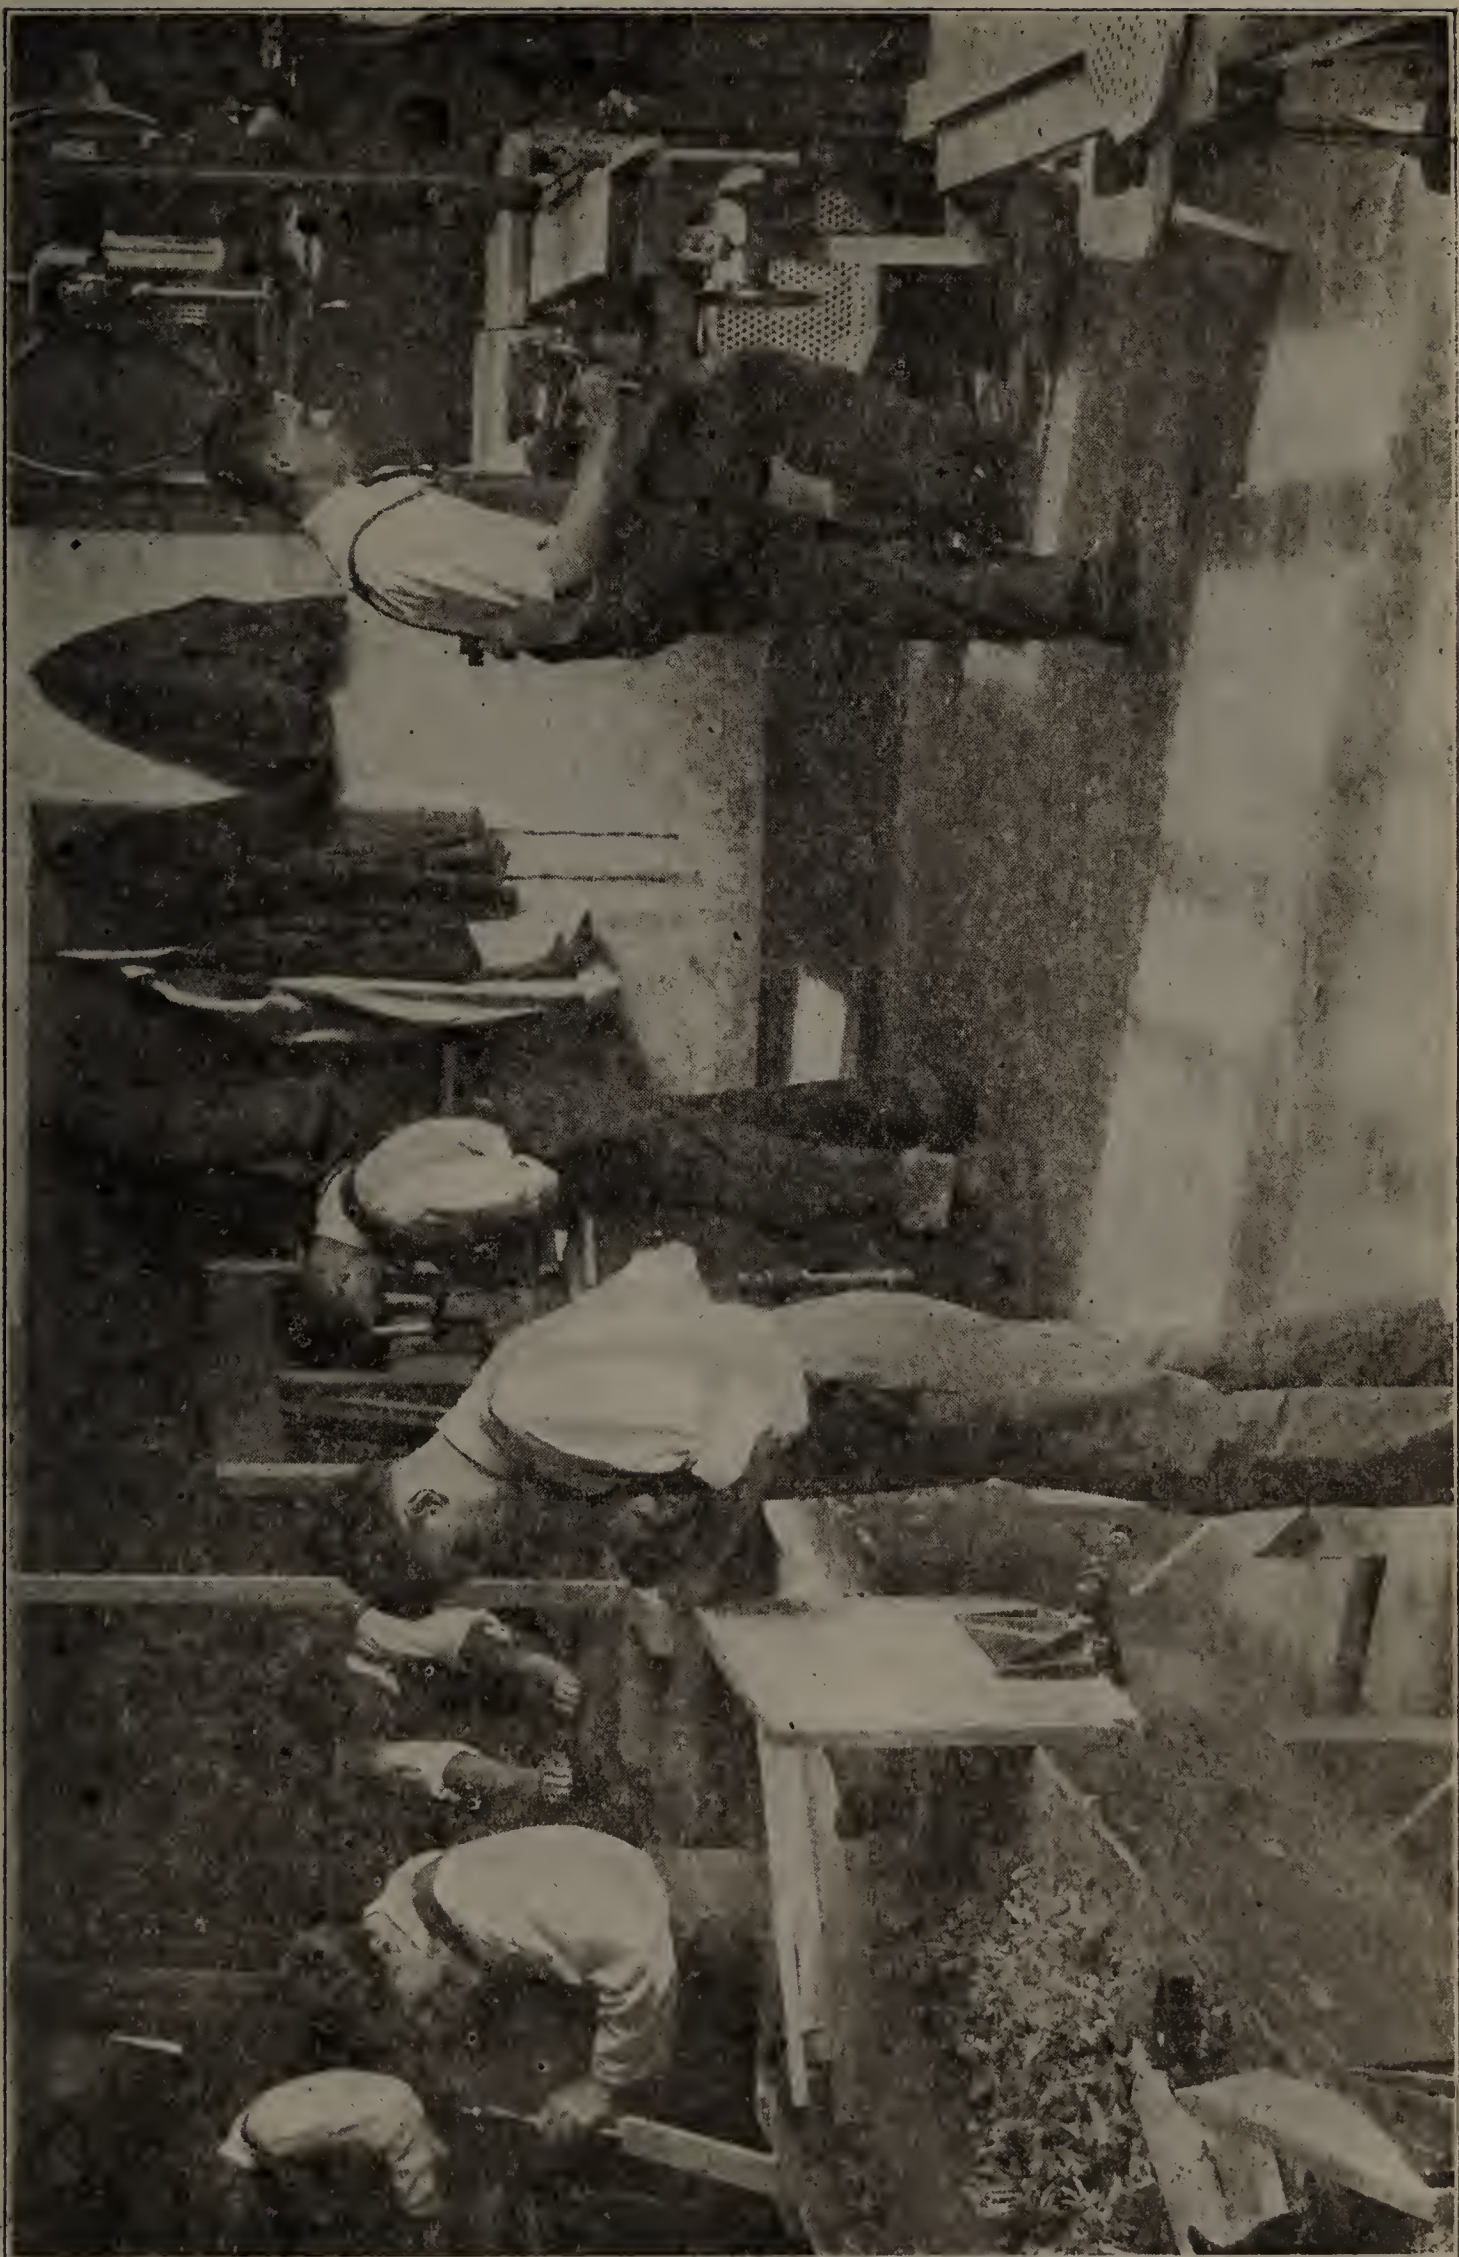

While the two trade courses already established, for the most part, seem to meet the demand for trade training, we feel that it would be a good plan to add sheet metal work and electric wiring. This would have a tendency not only to meet the demand for variety in training, but would tend to prevent overcrowding in any one field.

### PRACTICAL ARTS

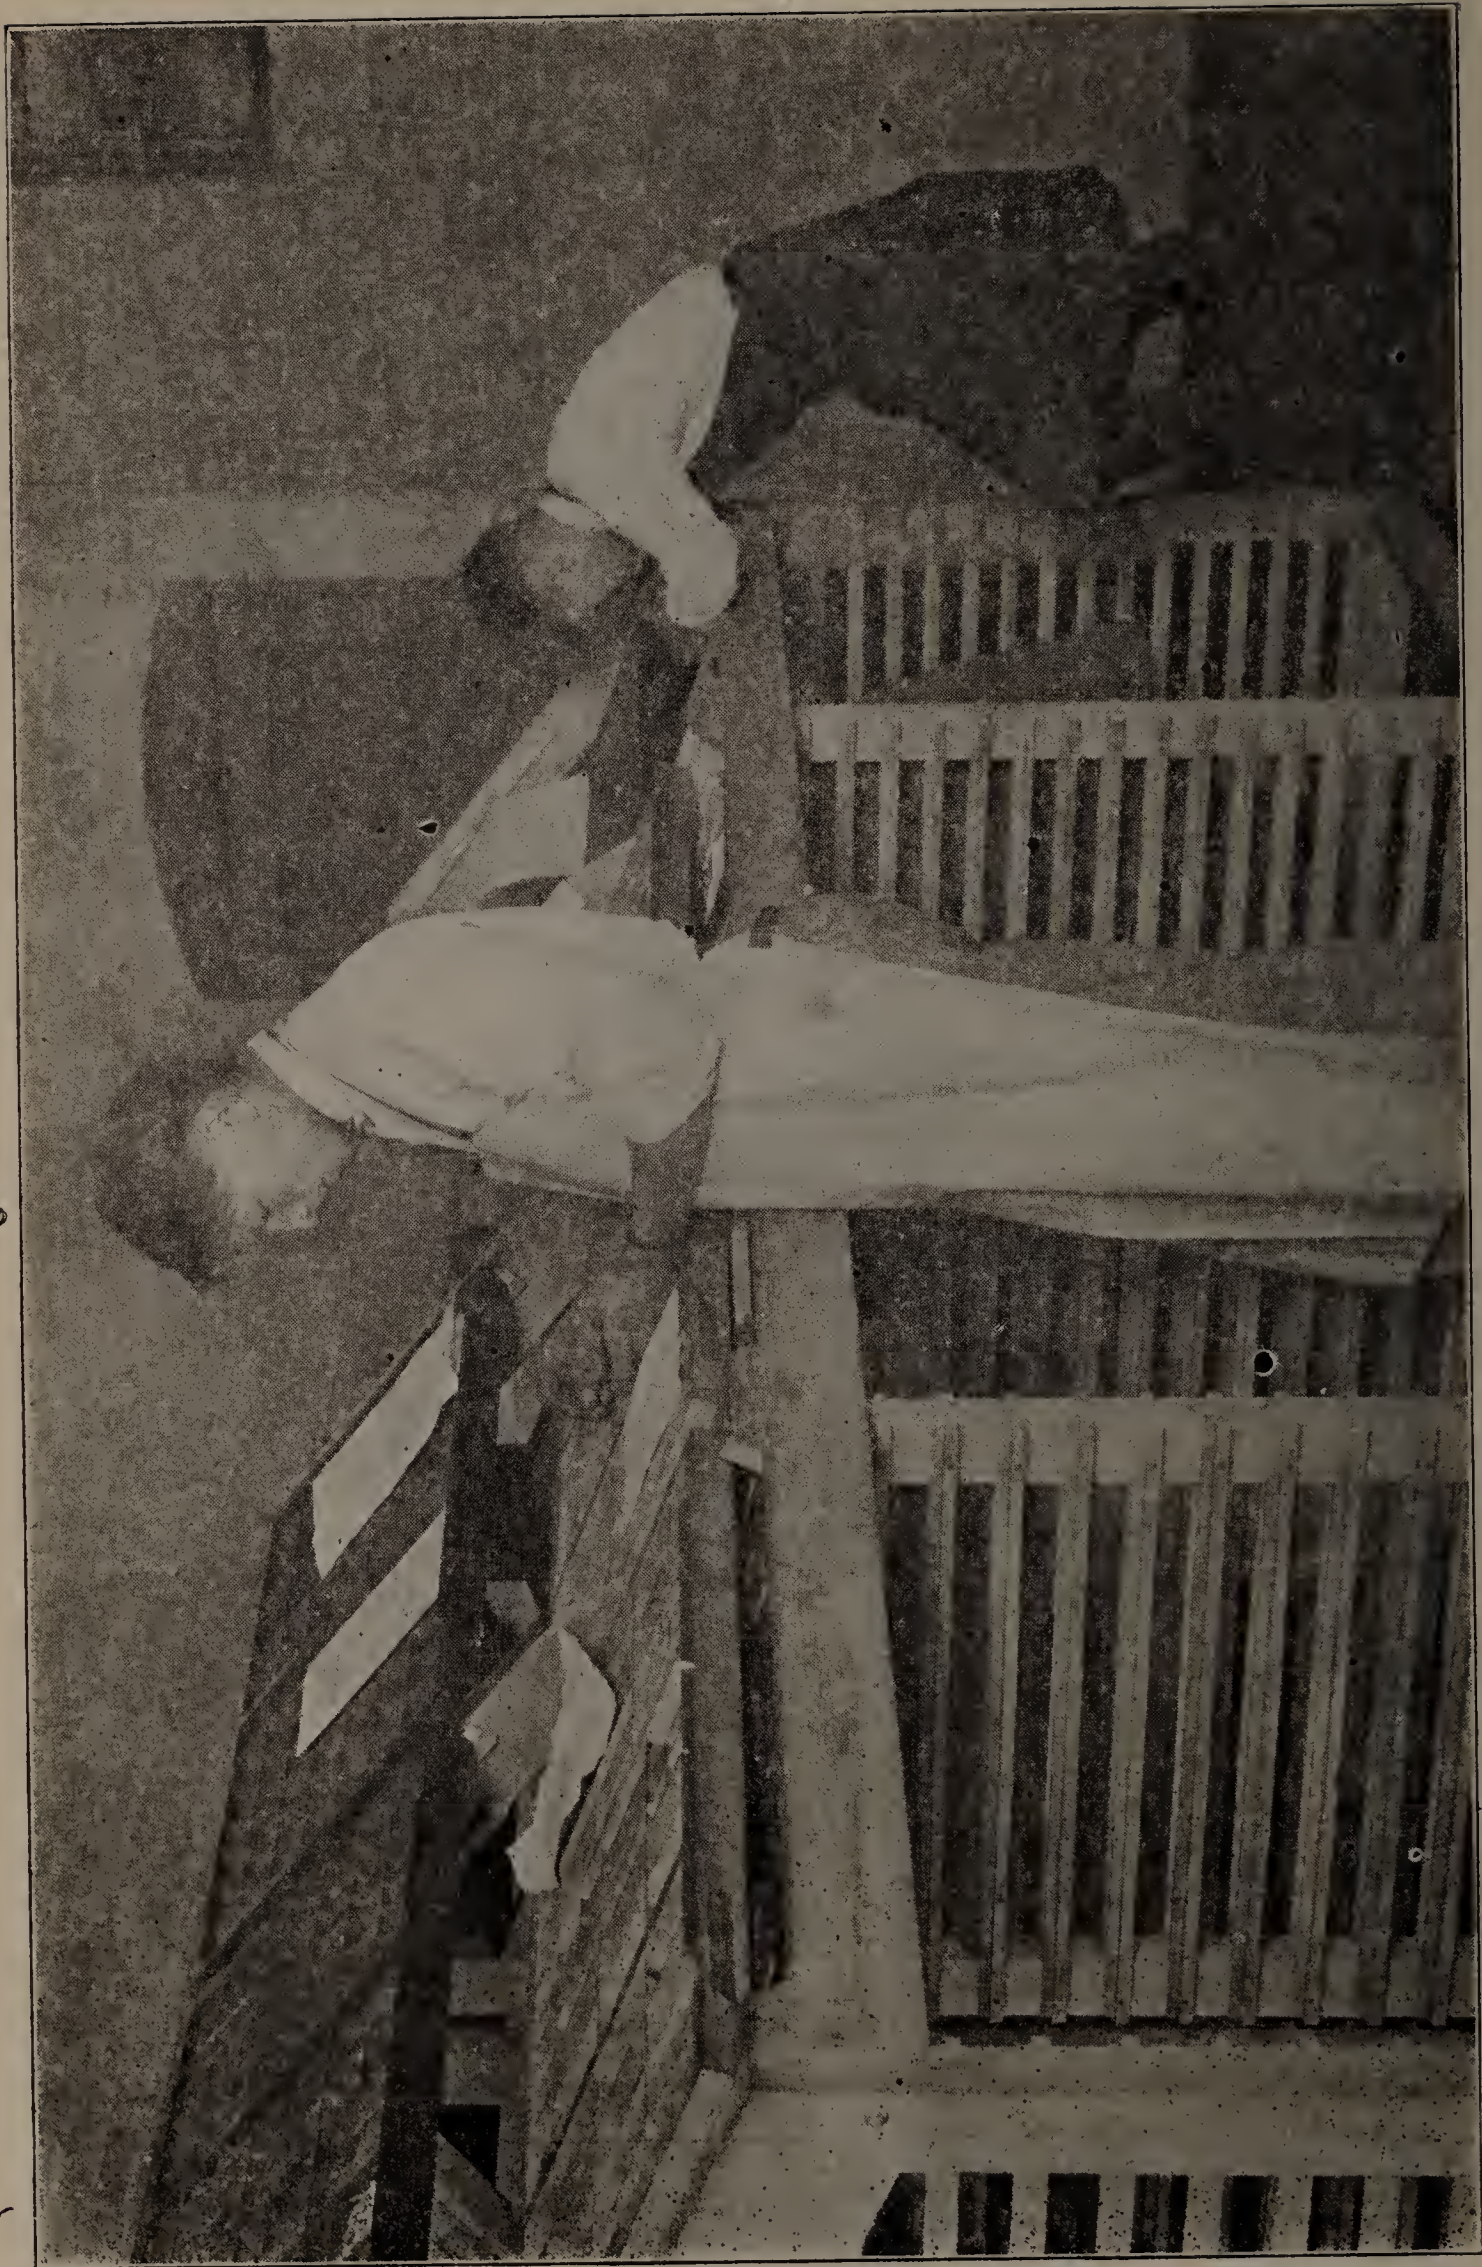

In the practical arts course for the girls the classes are filled for the first two years, and the work is proving very satisfactory. Home projects are causing some difficulty in cases where insufficient work can be found to keep the students occupied. The scattered condition of the town also makes it rather difficult to follow up the home project work. We hope that parents will give as careful attention to this part of the work as they are able to do in order to assist us in obtaining the best results.

The standard of work being done throughout the school is excellent, for the most part. We have, however, considerable trouble in impressing on the younger students the necessity for home study. A large per cent. of our failures is due to this cause alone. If the work is sufficient to occupy the average student for three or four hours of preparation, it ought to be very evident that a student who studies from one to two hours at home is very likely to fail in some of his subjects.

A GLIMPSE OF THE PRINT SHOP

The graduating class of 1925 numbered eighty-four. The usual number of these went to higher institutions of learning, or immediately into work of some kind. The distribution of those going beyond the High School is as follows:

	Boys	Girls	Total
Colleges	11	6	17
Normal Schools	0	8	8
Business Schools	0	3	3
Miscellaneous Schools	1	3	4
	—	—	—
Total	12	20	32

The spirit of co-operation among the teachers and students has been very excellent, and I wish to take this opportunity of expressing my appreciation for a pleasant year.

### AGRICULTURE

(Report of Hilmer S. Nelson, Director of Agriculture)

The total number of students enrolled in the department as of December 31, 1925, is seventeen, divided according to classes as follows:

Seniors	3
Juniors	3
Sophomores	6
Freshmen	5

The total enrollment for the year was twenty-two, distributed as follows:

Following Present Course	17
Graduated to enter the Massachusetts Agricultural College	2
Left to go to work	1
Changed to High School Course	1

The following figures may be of interest:

Average monthly aggregate attendance	354.20
Average daily attendance	18.79
Average monthly membership	19.70
Average monthly per cent. of attendance	95.33

Each student now enrolled is carrying a project, the seventeen projects being divided as follows:

Garden projects	8
Poultry projects	5
Garden and poultry projects	1
Sheep project	1
Pig project	1
Greenhouse project	1

The practice of visits to various outstanding local agricultural enterprises was carried on as in years past, together with classroom demonstrations and debates, illustrated lectures and meetings connected with the Weymouth Agricultural Club, and actual shop work practice in the room of the Manual Training Department.

At the Boston Poultry Show the response of the students was very fine and the results of their efforts very gratifying. Our club exhibit won first prize, a total of nine clubs competing. This exhibit was arranged by the seniors and set up by them. In the Sophomore class the Culling Demonstration Team came in third with a total of about eleven entries. Five Sophomores and Freshmen exhibited birds with a total of five prizes. Prize money, to-

gether with ribbons, was issued to each winner and special prizes to some.

During the school year of 1925-1926 the general course of study for the combined classes is as follows:

Freshmen and Sophomores—Vegetable Gardening, Ornamental Planting and allied studies, plus plenty of practical shop work, supervised work and particular project development.

Juniors and Seniors—Dairying, Farm Management, Physics and allied studies, together with regular prescribed academic studies, plus project development at home, supervised outside labor and class demonstration work.

Our very well stocked library of agricultural books and an abundant supply of bulletin material may be used as the source of much valuable information to the farming folk of this town. Our agricultural laboratory equipment is at your service. We trust you will feel free to call upon this department to render any assistance and aid possible.

The crop reports of this section of the country are compiled at this department for the United States Department of Agriculture. It is our desire that as many as possible of the numerous market gardeners, poultrymen, dairymen, horticulturists, farmers and agricultural workers of this vicinity will report monthly to this department crop and livestock conditions and predictions that will assist in issuing an accurate report. All communications may be addressed to the Agricultural Department of the Weymouth High School.

## DENTAL CLINIC

(Report of Alice A. Conroy, Dental Hygienist)

The Dental Clinic has now been conducted for over three successive years under the direction of the Weymouth Visiting Nurse Association, the purpose being to bring to each child an actual demonstration of the advantages realized by clean teeth and a clean mouth. This idea of regular cleanliness in the mouth and the benefits derived from it are brought individually to each child by prophylactic treatment and instructions received at the Clinic.

Each of the elementary school buildings has been visited and now the pupils, and also the parents look forward to the Dental Clinic each year. The regular response from the children and chart card records all point to general improvement in the condition of the children's mouths. Teachers have done much to instruct the pupils in regular habits of brushing the teeth after prophylactic treatment. Two sizes of inexpensive tooth brushes are always on hand for the children. The advantage here is that the correct size and style of brush is procured.

Carious teeth are checked up at each treatment and slips sent home to the parents when such a condition exists. Permanent teeth that are so often mistaken for temporary teeth are in this way retained, by further dental treatment.

My appreciation is extended to all who have assisted me in carrying on this work.

## DRAWING

(Report of Evelyn Silvester, Supervisor of Drawing)

The art work, as we present it in the Weymouth graded schools, might be classified under two headings: Representation and Design. All grades have many problems of progressive difficulty to illustrate these two divisions.

Primary Representation consists of free expression pictures of subjects of vital interest to the child, like a picture of a little girl giving dolly a ride or a picture of boys playing ball. The child draws freely what his own conception of such a scene would be. In connection with this work comes the need for more accurate drawing of objects. We give special lessons on toys, baby carriages, carts, trolleys, children running, standing still, climbing, sitting or playing, to give the children a more complete drawing vocabulary. The Picture Study of reproductions of beautiful and famous paintings and sculpture supplements this work nicely, also correlating with language and often with other subjects.

Design in the primary grades covers the important design principles, like knowledge of shapes and proportions, the ideas of repetition, alternation and progression. Color also comes under Design and color names and simple terms, like light, dark and medium, color neighbors and color opposites are learned.

Of course, all primary work is planned to teach the use of various mediums, like pencils, crayons, scissors, etc., and in Grade III, brushes and ink, and in Grade IV, paints. Thus we attempt to establish good technique.

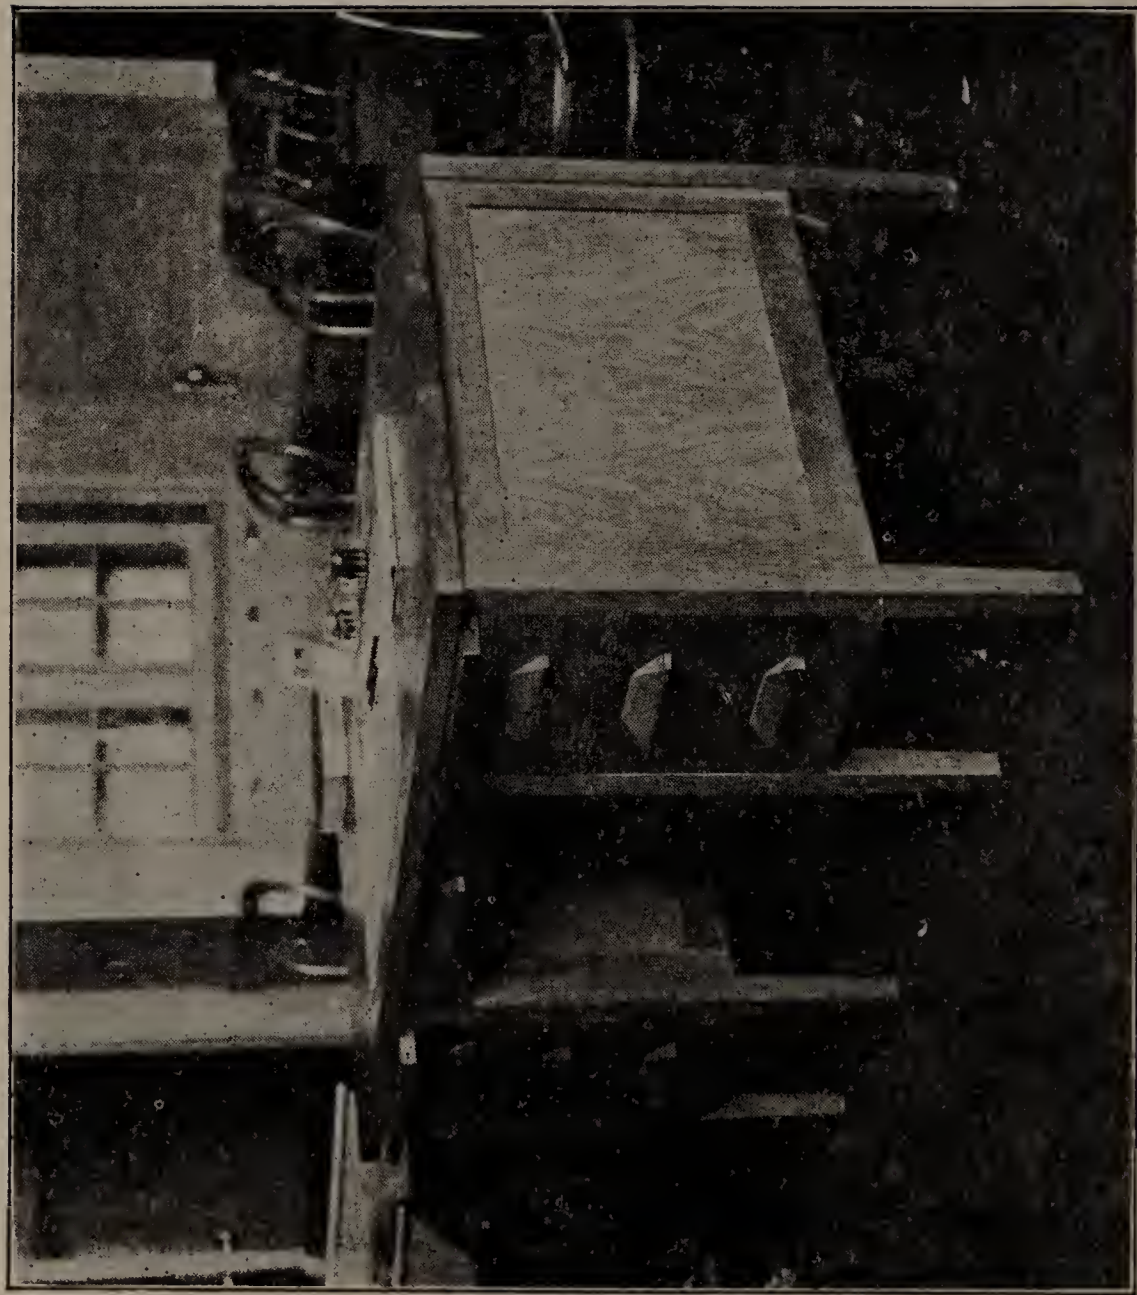

In the upper grades Representation and Design are in some ways very closely intertwined, as in the making of a poster. That calls for Design in arrangement and printing and Representation in all its phases for the illustration. So we have our two divisions converging in one problem. Under Representation we study animal drawing, perspective and object drawing, flowers, birds, butterflies and shells. In all these things we find the general laws of Design illustrated. The body and legs of a dog and a horse can be enclosed within a square. Cats fit into the rectangle. Many flowers are circular. Some flowers are triangular; others pentagonal and hexagonal. Snow crystals are always either hexagonal or triangular. Butterflies and people balance. Front and back views of chairs and vehicles balance. Birds, butterflies and flowers give color combinations. So it goes. Nothing is without Design. It covers far more than surface decoration for pillow tops or table runners. We do develop some surface designs from the abstract, however. Some times we base the idea on nature; sometimes on a geometric base. These designs may be applied to a bag or hat ornament, wall paper or box cover; jewelry, etc.

Printing is a very interesting and perhaps one of the most useful parts of our Design study. In the days of "It Pays to Advertise" you can easily understand how helpful it is to be able to make a neat, correct and interesting sign. Christmas cards and tickets made easily and quickly with a lettering pen may be really choice.

In December of this year we have all been having a wonderful time making different Christmas things. In every grade the problems have demanded thought and skill in execution. Otherwise, the time spent would be wasted.

During the coming year we hope to develop a series of lantern slides to be used in correlating as many subjects as possible. The

DESK MADE IN THE SHOP

slides will be cross-catalogued under brief topic outlines of Geography, History, Natural Science and Art. They should also supply helpful material for language reference. I know of no similar series in use in grammar school work, and any helpful suggestions as to where material may be secured or what types of pictures would meet special needs would be greatly appreciated.

I cannot end this report without again thanking all of the Weymouth Faculty and Mr. Pearson for the fine spirit of co-operation which makes work in Weymouth a pleasure and makes us all feel that we are really giving that "something" which we hope may set a high standard for our future citizens.

## MUSIC

(Report of James W. Calderwood, Supervisor of Music)

Music in the grades has progressed along the usual lines the past school year, and with increasingly satisfactory results.

In February of the present year the High School Orchestra made its annual appearance before the Monday Club; and early in June the operetta, "The Merry Milk-Maids" was given in the assembly hall before an appreciative audience that filled that auditorium. It is now the purpose to give a work of this kind once each year.

In October a double quartet of mixed voices was selected to join with similar representatives from the other cities and towns in the county, all these to form a joint chorus which sang before the Norfolk County Teachers' Association at the Tremont Theatre. A very marked enthusiasm in our school music life was thus engendered and its effects continue to this very moment.

For the first time in its history Weymouth is thoroughly aroused to the idea of having a brass band at the High School. Already active plans are in the making toward this end, so that within a year of the present writing the town will be boasting of having its own High School Band. There is a noticeable interest in the subject of music throughout the schools of this town. Weymouth may of a certainty be said to be advancing toward that time when it may claim to be one of those localities where music in the public schools is one of the subjects in which it excels.

## SCHOOL GARDENS

(Report of Sarah E. Brassill, Supervisor of School Gardens)

There is little of novelty, but much of interest to report. Lessons in gardening in the seventh and eighth grades have been the basis of the work. The outline of lessons is the same that has been in use during the two previous years. Each class, however, and indeed, each pupil, brings to the subject a different preparation and background. Therefore, lessons having the same title vary much in their content. The end sought is not a definite set of facts learned verbatim, but an increasing knowledge of and love for growing things.

Other lines of interest lead to the formation of volunteer groups for additional work. Honors in these clubs, which are organized under the Department of Agriculture, are won in competition with similar groups throughout the county and state. Apart from the honors won, the work in itself is valuable and its best reward is the doing. Membership in these clubs opens up opportunities to enter various county, state and even inter-state contests, thereby allowing us to measure ourselves with others who are doing similar work.

The Weymouth Fair gives us a chance to show our flowers and vegetables, our canning, cookery and garment making, and our poultry. Other fairs in which we took part were Marshfield, Brockton, Eastern States at Springfield, and the Boston Poultry Show.

We have a "Room Beautiful" group who are interested in interior decoration, especially of their own rooms. One member stood third in the county, thereby winning the boudoir lamp offered by the Weymouth Light & Power Company.

There is an "Outfit Group," who are working on a complete outfit of clothing; a Handicraft Group; a Canning Club, whose President spent a week in camp at Massachusetts Agricultural College because she was champion; seven Food Clubs; two Garment Making Clubs and seven Poultry Clubs. Delegates from these clubs were present at Achievement Day exercises at the Norfolk County Agricultural School at Walpole, and at several demonstrations brought to us by county representatives. Weymouth was represented by two numbers at the County Camp in summer. Delegates saw the Poultry Exhibit at Springfield and brought back ribbons to our winning members, and Poultry Club members entered the Junior Department of the Boston Poultry Show.

The work gives to the pupils one more link between school and life. In keeping the records and in making the reports required pupils use all they have learned of spelling, writing, language and arithmetic, so answering for themselves, "What good will it do me?" To their interest, and to the much appreciated help from teachers and friends our success is due.

## RETARDED CHILDREN

In March an examination of the retarded children was completed by the state authorities. Eighteen children were found who should be in special classes. These children are, for the most part, too old for their grade. They have lost touch with children of their own age, and do not belong in the regular groups. They should be under specially trained teachers, not over fifteen in a group, and be given extra work fitted to their capabilities in order to enable them to get as much out of their school life as possible. It is a state law that provision must be made for them, and this phase of school work will be attended to as soon as possible.

In conclusion, I thank the School Committee, the teachers and the public at large for their cordial and loyal support throughout the year.

Respectfully submitted,

PARKER T. PEARSON,

Superintendent of Schools.

### ODE TO THE CLASS OF 1925

By Mary Ruth Dunning

Today we stand and face a shining world,  
 Clear-eyed, intrepid, breathless with delight.  
 High dreams have we, and lovely, laughing joy,  
 And winged hope, all radiant and white  
 Today the splendid vigor of our youth  
 Triumphant breaks through iron bolts and bars;  
 And though we walk upon the gladsome earth,  
 Our heads are hidden in the singing stars.

But there will come an end to our young dreams,  
When the "first fine careless rapture" shall have passed,  
And when into the searing forge of life  
Shall all the youth in our high hearts be cast.  
So, for that time, whatever fate may bring,  
However steep the heights may be to scale,  
From our souls' depths, we breathe this mighty prayer:  
Let us not fail, dear God; let us not fail.

Music by Marjorie Allen Torrey

REPORT OF THE HIGH SCHOOL BUILDING COMMITTEE  
IN THE MATTER OF  
"THE LEGION MEMORIAL" ATHLETIC FIELD

To the Citizens of Weymouth:

At the last annual Town Meeting to your Committee was given the authority to purchase and drain the land at the junction of Commercial and Middle Streets for the purpose of providing a playground or athletic field for use in connection with the Weymouth High School, said field to be named "The Legion Memorial Field," and the sum of \$10,906.00 was made available for this purpose.

The form of the vote first put upon your Committee the duty of determining specifically the feasibility of the entire project. This necessitated the securing of carefully worked-out estimates in connection with surveys and soundings. Mr. Fred O. Stevens, Superintendent of the Water Department, assisted by Mr. Russell H. Whiting, who made careful surveys of the location, has made such estimates, and his report to your Committee has warranted them in going ahead with the purchase, and making preparations for drainage.

An examination of the title by the Town Counsel disclosed that certain easements existed over this land which needed to be extinguished, and from an engineering point of view it was desirable that certain easements which would facilitate better drainage should be secured. This being done through the office of the Town Counsel, late in the year, the property was finally deeded to the Town and payment made therefor.

The balance of the appropriation now available is probably sufficient to care for the thorough draining of the land, and such work will necessarily have to be done during the coming year. Appended to this report is a reproduction of a possible plan of development to be carried out after the field shall be drained. Such work, of course, must be postponed until the surface has had an opportunity for drying out, and your Committee believe that this work cannot with much certainty be taken up before the year 1927.

Respectfully submitted,

### REPORT OF THE SELECTMEN

To the Inhabitants of the Town of Weymouth:

At the Annual Town Election held March 9, 1925, the following Selectmen were elected: H. Franklin Perry, Fred E. Waite, Theron L. Tirrell, Winslow M. Tirrell, and William B. Dasha.

The board met on the morning of the tenth and after having taken their oaths of office before Emerson R. Dizer, Assistant Town Clerk proceeded to organize.

Fred E. Waite was elected Chairman and Winslow M. Tirrell, Clerk.

Irving E. Johnson was appointed Supt. of Streets.

March 16, James T. Nettles appointed Inspector of Animals.

March 23, Oliver Cox, appointed Harbor Master.

Clayton B. Merchant resigned as Assessor and a joint meeting of the Assessors and Selectmen was held and Wendell T. Dizer was appointed to serve until the next annual town meeting.

April 6. Joint meeting of the Water Commissioners and Selectmen, Emerson R. Dizer was appointed Town Accountant.

April 13, Daniel Sullivan appointed Inspector of Animals in place of James T. Nettles deceased.

April 28. John Q. Hunt was appointed Chief of the Fire Department.

### State Census

The State Census was taken under the direction of the Selectmen with the following result.

Total number 17253, divided as follows:

Precinct 1,	3658
Precinct 2,	2306
Precinct 3,	3133
Precinct 4,	1229
Precinct 5,	2859
Precinct 6,	2927
Precinct 7,	1142

### Perambulation

The perambulation of the town lines in company with the Selectmen of the contiguous towns (with the exception of Holbrook) was made in conformity with the provisions of the statute law requiring this to be done every five years. All of the bound stones were found and acknowledged to be in their proper places.

### Bridge Street Widening

The State proposes the widening of Bridge Street between Fore River Bridge to Hingham Bridge. All surveying has been made and final plans have been presented to the Board and a majority of the abbuttors have signed releases accepting the awards for land taking and other damages as made by the State Engineer.

The Selectmen are unanimously in favor of this proposition.

### Laban Pratt Hospital Fund

1925 The Laban Pratt Hospital Fund was turned over to the Town July 15, 1926, and at a special town meeting held August 24th it was voted to deposit the funds in the Weymouth Town Banks.

The following is on deposit Dec. 31st, 1925:

Weymouth Trust Company, Book No.	
1757 .....	\$76506.20
Weymouth Savings Bank, Book No. 22972	75937.50
South Weymouth Savings Bank, Book	
No. 11511 .....	75000.00
East Weymouth Savings Bank, Book	
No. 20981 .....	75281.25
	<hr/>
	\$302,724.95

### Building Laws

The Selectmen were appointed a committee to draw up a set of Building Laws.

A Public Hearing was called and a good representation of the Contractors and Builders of the town were presented and with the information received at this meeting and laws of other cities and towns we are presenting a set of laws to the annual town meeting for their consideration.

### Idlewell Bridge

The Selectmen make a report on the rights of the Town of Weymouth to enlarge the Idlewell bridge are contained in the statutes hereinafter referred to.

The present bridge was constructed by virtue of an agreement between the railroad and the then owner of Idlewell property, made at the time of the granting the railroad of a location through the property, and made for the purpose of ingress and egress of the owner of the Idlewell property. The public highway stops at the Commercial Street end of the bridge as I understand it.

General Laws, Chapter 160, Section 104, provides:—

“A public way may be laid out across a railroad previously constructed, if the County Commissioners adjudge that public necessity and convenience so require; and in such case, after notice to the railroad corporation and a hearing of all parties interested, they may thus lay out or authorize a city or town upon petition of the Board of Alderman or Selectmen thereof, to lay out a way across a railroad, in such manner as not to injure or obstruct the railroad, and otherwise in conformity with Sections 97 and 98, but they shall not permit it to cross at a level with the railroad unless public necessity so requires and the department (Public Utilities Dept.) consents thereto in writing, in which case the County Commissioners may give special authority for such crossing as provided in Section 102.”

The cost of laying out such way and building and maintaining the bridge will be wholly upon the town.

Section 59 of Chapter 159 of the General Laws, providing for the alteration of crossings and General Laws, providing for the alteration of crossings and the rebuilding of a highway bridge or any structural change or renewal, in order to improve a highway bridge, is not applicable to the Idlewell bridge because it is not a public way.

In my opinion, the remedy that the town as a municipality has lies only in its right to petition the County Commissioners for authority to lay out a way across the railroad at the point of the Idlewell bridge, and to make an appropriation to cover the expense of the building of such way and the necessary bridge.

As to the rights of the present owners of the Idlewell property. Section 109 of Chapter 160 of the General Laws provides,—

“If a railroad is laid out through land of an owner and if the crossing is inconvenient, either party may petition the County Commissioners who after taking a recognizance from the applicant of the county, with sureties to their satisfaction for the payment of costs and expenses according to their order, and after notice to the other party and a hearing, may make an order relative to such crossing and to the costs of the applicant; but they shall not order the corporation to construct or maintain a crossing without its consent, unless it is liable by law or by agreement to construct a crossing for the owner of the land, or is the applicant.”

As stated above, the bridge was built and maintained by virtue of an agreement between the railroad and the then owner of Idlewell. The rights of the owner now revert to the present owners and it seems to me that the present owners have a remedy to petition the County Commissioners for an order that a new bridge is necessary.

I am informed that the present owners of Idlewell have their own counsel, who I presume has advised them as to their rights in the matter.

My conclusion is that unless the town as a municipality, desires to lay out a public way across the bridge and build and maintain the bridge at their sole expense, that the town can afford no constructive assistance to the Idlewell people unless, of course, the town desires to lay out a street or access to the Idlewell property through a street in some other location not involving crossing the railroad property.

We suggest the following article for the warrant for the next town meeting:

“Article ———

To see if the Town will authorize the Board of Selectmen to petition the County Commissioner to lay out, or authorize the Board of Selectmen of Weymouth, to lay out a public way across the South Shore branch of the New York, New Haven and Hartford Railroad Company, at or near the location of the present Idlewell bridge, or take any other action in relation thereto.”

FRED E. WAITE,  
WINSLOW M. TIRRELL,  
WILLIAM B. DASHA,  
H. FRANKLIN PERRY,  
THERON L. TIRRELL,  
Selectmen of Weymouth.

#### REPORT OF THE OVERSEERS OF THE POOR

To the Inhabitants of the Town of Weymouth:

It would be impossible to make a detailed report of the work done by the Overseers of the Poor, hardly a day passes but what a case is brought to the attention of some member and we try to give every case our careful consideration.

A recent decision handed down by the Supreme Court has changed the settlement laws so that a woman must gain her own settlement after marriage instead of taking her husband's.

Mr. and Mrs. Barrett T. Wheeler were appointed to take charge of the Town Home.

On November 30, 1925 Mrs. Wheeler was stricken and passed away almost instantly, she was an ideal matron, loved and esteemed by everyone that knew her.

We express to Mr. Wheeler and family our greatest sympathy.

#### REPORT OF THE TOWN ACCOUNTANT

East Weymouth, Mass., Jan. 1, 1926

To the Board of Selectmen and Overseers of the Poor:  
Gentlemen:

I submit herewith the 24th annual report of the accounting department showing the financial transactions of the several Town departments.

The growth of our Town, calling for greater expenditures each year, makes it impractical to report in such detail the expenditures of the several municipal departments as has been customary in previous years. The classification as given very closely conforms to that required by the State. Should any further detail be needed it will be given by this office.

The increase in our levy from year to year places considerable responsibility on those charged with the collection and expenditure of public funds. The Tax Collector occupies a position in this branch of service which calls for such a responsibility, and the report of the State examiners this year is evidence that the Town of Weymouth is receiving efficient service in tax collections.

The books of the Tax Collector were thoroughly audited by this office and the amounts outstanding verified by mailing notices to parties appearing to have balances unpaid. Having received no replies to the contrary I am satisfied that the books are correct. The collections on commitments of 1919, 1920, 1921 and 1922 were

completed during 1925, and at this writing there is less than \$1,000 due on the commitment of 1923.

All cash balances have been verified at least once a month by comparison with the records of the Weymouth Trust Company and the First National Bank of Boston, having always been found correct.

During the year final payment was made on the Hunt Schoolhouse and the 1920 Macadam Pavement Loan, while the year 1926 will see the final payment on the James Humphrey Schoolhouse for which a sufficient sum is in the Sinking Fund.

While our net debt has been increased by \$61,584.26, the borrowing capacity of the Town has nevertheless increased through additional valuation to \$289,603.60, an increase over last year of \$90,620.99.

The audit by the Commonwealth under the supervision of Theodore N. Waddell, Director of Accounts, made during the past summer was particularly gratifying in view of the many cases of municipal mismanagement revealed elsewhere in this State. In the report to the Selectmen it is stated that the accounts of the Town were found correct, and such recommendations as were made are having consideration.

I have prepared the balance sheet of the Town accounts in a somewhat different form than heretofore, and information is given that will no doubt be of interest to the citizens.

The gross surplus of the Town as of Dec. 31, 1925 was \$178,913.83, which makes available after deductions for uncollected taxes, the sum of \$35,821.26 which may be used by the Assessors, if so voted by the Town, in establishing the tax rate for 1926.

The securities of the Town, in possession of the Town Treasurer, were examined and found in order.

Legislation now pending before the General Court, if passed, will call for a closer supervision and greater control of municipal expenditures by city auditors and town accountants who are charged with the responsibility of seeing that the public funds are taken care of and expended as the people vote and as statute requires. Consideration must soon be given to the necessity of better office arrangements if the efficiency of the several departments of Town Government is to be maintained.

The co-operation of your board and other department heads this past year has assisted materially in expediting the work of this department.

Respectfully,

EMERSON R. DIZER,

Town Accountant

## REPORT OF THE WATER COMMISSIONERS

January 1, 1926

The Board organized March 25, 1925 with the election of Frank W. Torrey as chairman, George E. Bicknell, clerk and John H. Stetson, treasurer.

The following appointments for the current year were made: Supt. Fred O. Stevens; pumping engineer, George W. Sargent; register and collector, Marshall T. Tirrell and pond officer, Willie B. Loud.

Jointly with the Selectmen, Emerson R. Dizer was appointed Town Accountant.

A careful reading of the detailed report as submitted by the Superintendent, will fully satisfy anyone that our reports of 1923 and 1924 were not imaginative but real facts and will bear reiteration at the present time.

We request the following appropriations from our income of the coming year:

Maintenance and Operation	\$26,000.00
Replarement	3,000.00
Replacement	3,000.00
Commercial Expenses	6,500.00

Interest	4,685.00
Bond Retirement	12,500.00
Minor Construction	22,000.00
	<hr/>
	\$78,885.00

Respectfully submitted,

FRANK H. TORREY,  
GEORGE E. BICKNELL,  
GEORGE W. PERRY,  
FRED E. WAITE,  
JOHN H. STETSON,

Commissioners.

## REPORT OF THE TOWN ACCOUNTANT

East Weymouth, Mass., January 1, 1926

To the Board of Water Commissioners:  
Gentlemen:

Herewith is submitted the twenty-fourth annual report of the Accounting Department showing the receipts and expenditures on account of the Water Department for the year ending December 31 1925.

In order to have the classification of accounts conform more closely to that required by the State and the New England Water Works Association, several changes will be noted in this report.

The general condition of the department, in so far as it relates to the detail work of the water office, has been much improved during the year. The installation of a modern system of billing has made possible a thorough audit of the books. Notices were sent to those having open accounts, and no items having been questioned I am satisfied that the records are correct.

The general fund of the water department as of Dec. 31, 1925 is \$36,187.87, which makes available for appropriating purposes, after deducting accounts receivable, the sum of \$17,349.45.

Respectfully submitted,

EMERSON R. DIZER

Town Accountant.
